MINNESOTA LEGISLATURE.

First Saturday Session of the Year Held by Both Houses.

St. Paul, Feb. 13.—The Minnesota legislature held its first Saturday session this year on Feb. 11. Senator Thorpe's resolution protesting against granting "drawbacks" on Canadian wheat was passed in the house by a large majority; three bills relating to the care and maintenance of the new and the old capital were presented in the house; another would repeal the corrupt practices act, two others would make the judiciary nonpartisan, and another requires that wine made in the state prison at Stillwater be sold at cost.

A bill presented in the senate makes sale or use of giant fire crackers a misdemeanor, another provides for a home for crippled, deformed and indigent children in Ramsey county, another requires examination of Minneapolis, St. Paul and Duluth city accounts by public examiner. The senate passed S. F. 25, prohibiting the sale of wood alcohol except when properly labeled. Both houses adjourned to Monday.

13 Years of Intense Suffering.

Thirteen years I suffered intensely from rheumatism writes Mrs. Mina Schott, of Marion, Ohio, but Gloria Tonic cured me after using morphine and other worthless drugs for years. Sold by H. P. Dunn & Co. mwf

LADRONE BAND CAMPED PRESSED.

Filipino Rebels Compelled to Release Their Captives.

Manila, Feb. 13.—The band of ladrones which attacked the town of San Francisco de Malabon in the province of Cavite Jan. 24, and captured the wife and two children of former Governor Trias, is being hard pressed by a troop of cavalry under Major E. W. Sibley. They have released Mrs. Trias and her two children, whom they were holding for ransom.

Why not get it

when you can get sure relief from a violent cough? Gloria Lung Balsam will do this every time. It is made of honey, tar, wild cherry, etc., and is the best for children. Sold by H. P. Dunn & Co. mwf

RESERVES MUTINOUS

RUSSIANS WHO ARE BEING MOBILIZED TO FIGHT JAPS KILL A POLICE OFFICER.

SHOT DOWN BY COSSACKS

EIGHTEEN OF THE RAW TROOPS KILLED AND MORE THAN EIGHTY WOUNDED.

Berlin, Feb. 13.—Whatever the disposition of the Russian army as a whole may be, the army reserves in the Russian provinces bordering on Germany are not only disloyal but mutinous. New and serious disturbances have broken out among the reserves and conscripts who are being mobilized or who are being sent to the far East. A large body of the reserves looted shops on the outskirts of Kieff, the great pilgrim city, which is called the "Jerusalem of Russia." The raw soldiers killed the officer in command of the police who tried to restrain them. Then a detachment of Cossacks fired on the reserves, killing eighteen and wounding more than eighty.

At Niefin, in the same neighborhood, a regiment of reserves was about to take the train for the seat of war. When the train drew up these soldiers smashed all the windows in the cars. When orders were given to get aboard and start the train hundreds of soldiers gathered in front of the locomotive and swore they would not budge. Some even threw themselves on the rails, crying they would rather be killed by a locomotive near their homes than by the Japanese in Manchuria.

At Hursk a party of reserves attacked three officials who were directing their mobilization, killing one and badly wounding others. After a summary trial the ringleaders were shot in the prison yard the next morning. In the provinces of Podolia and Volynia 300 reserves, rather than start for the far East, fled into the woods, where they are wandering about in the deep snow. They must be suffering great hardships. Parties of Cossacks have been sent to capture them with strict orders to shoot them if they resist.

FEARS NOT REALIZED

ANTICIPATED RENEWAL OF SERIOUS TROUBLE AT ST. PETERSBURG FAILS TO OCCUR.

St. Petersburg, Feb. 13.—The anticipated renewal of trouble among the workmen Sunday was not realized. Neither strikers nor students made the slightest attempt to demonstrate and throughout the day the city presented the usual appearance.

The emperor's creation of a joint commission of employers and workmen chosen by themselves to investigate the charges of discontent among the laborers has made an exceedingly good impression, being considered definite evidence of the government's purpose to compel some of the rapacious masters who have paid starvation wages to do justice to the employees.

The imperial decree ordering the formation of the committee reposes the presidency of the body in Senator Chidlovski, a member of the council of the empire, and instructs the committee to ascertain immediately the causes of discontent of St. Petersburg's workmen and devise measures to prevent such discontent in future. The committee consists of representatives of government departments, the various industries and the workmen.

The president is authorized to report in person to the emperor and determine the number and mode of selection of the committee.

At the Mali theater Sunday night a scene was created by cries of "Down with the autocracy," and personal abuse of the emperor. The demonstrators were ejected from the theater. The police continue to make arrests. The workmen at Tiflis generally are returning to work. The authorities are taking measures to protect those who are resuming labor. Trifling disorders are reported at other places in the Caucasus.

The strike continues in all of the big factories at Warsaw, where the coal supply is now the most urgent question.

A message from Lodz says that all is quiet there.

RESULTS IN A DEADLOCK.

Policy of Drift Pervades All Classes in Russia.

London, Feb. 13.—The correspondent at St. Petersburg of the Times, de-

scribing the situation, says that the policy of drift is pervading all classes, government, capital, labor and even the revolutionaries, the result being an internal deadlock.

Russia Buys Two Steamships.

London, Feb. 13.—The Times prints the statement that the Hamburg-American Steamship company's steamships Deutschland and Hamburg are to be sold to Russia for \$3,500,000 and \$2,000,000 respectively.

PLEASES LIBERAL CLASSES.

News That Czar Has Endorsed Plan to Revive the Zemsky Zabor.

St. Petersburg, Feb. 13.—The news that Emperor Nicholas has endorsed the scheme for the revival of the zemsky zabor, or ancient land parliament, which the old emperors convoked in times of stress, has spread through the city and created intense satisfaction among the liberal classes.

The newspapers are filled with articles descriptive of this ancient Russian institution, indicating that word had gone forth that the government had decided to listen to the voice of representatives of the people.

Naturally there is some skepticism as to whether the government intends frankly to take steps, but the general verdict is that if the emperor has succeeded in shaking off reactionary influences and now proceeds in good faith to summon the zemsky zabor he will rally to his support the moderate liberals and perhaps arouse a wave of genuine enthusiasm in the country. Liberals are convinced that a meeting of such a body must be followed by reforms.

RUSSIAN FORCES REPULSED.

Attack Village Held by Japs and Are Beaten Back.

Tokio, Feb. 13.—Japanese Manchurian headquarters telegraph that a company of Russians attacked Waitao-shan village on Friday night and were repulsed. The Russian batteries on the western foot of the Ta mountain shelled Putsaowo on Friday. A company of Russians attacked Linchientun early Saturday morning and were repulsed. The Russian artillery then slowly shelled Linchientun and vicinity.

The Russians have extended their defensive works to Lieuchiatun and seem to have extended their right along the railway to Siaofangshen, which is about a mile and a quarter east of Mantapao.

German Steamer Seized.

Tokio, Feb. 13.—The German steamer Parosa, bound for Vladivostok, was seized off Hokaido on Friday. Her cargo consisted of shipbuilding materials and food stuffs.

NAVAL APPROPRIATION BILL.

Will Be the Subject of a Long Debate in the House.

Washington, Feb. 13.—The naval appropriation bill will be taken up by the house on Monday as soon as legislation for the District of Columbia has been disposed of. The naval bill is usually a subject of long debate, and the bill this year will be attacked on several grounds. There will be a general discussion as to the naval policy and issue is to be taken with the committee in its proposition for new ships. The topic of armor plate contracts is to fill its accustomed place on the programme while submarine boats and torpedo boats are to form the basis of offensive and defensive argument. The best estimate that can be made is that at least four days will be consumed in getting legislative action on this bill in the house. It is to be followed immediately by the river and harbor bill, which has been on the calendar for some days and usually occupies some days, once it is taken up. Should the decks be cleared at any time, the proposed legislation of the Panama canal project, which is the continuing order, will be discussed.

ATTENTION OF THE SENATE.

Will Be Divided Between Swayne Case and Appropriation Bills.

Washington, Feb. 13.—The attention of the senate during the present week will be divided between the Swayne impeachment trial and the appropriation bills. The trial will be taken up each day at 2 o'clock and will continue to receive attention until 5 o'clock. Before and after the period between these hours the appropriation bills will be considered. The agricultural appropriation bill is still under discussion and as soon as it is disposed of the bill making appropriations for the District of Columbia will be taken up, to be followed by the diplomatic and consular bill.

HOCH INVESTIGATION ENDED.

Case of Bigamist Will Now Be Turned Over to State's Attorney.

Chicago, Feb. 13.—Completion of the police investigation into the affairs of Johann Hoch was made Sunday and the case now will be turned over to the state's attorney. That Hoch is guilty of bigamy is proved by his own admissions, and now the state's lawyer will seek evidence showing that Hoch murdered one or more of his wives.

Advance Silk Sale Continued

With the mercury at 29 below zero we did not expect you in even if our silk values were tempting. This cold weather is evidence that the warmer will be here in due season and then you will want the silks.

However, now is the time to buy them and make them up. Our knowledge of values and styles causes us to use no hesitancy in saying that what we are offering are just a little better than you will secure soon again. Prices advertised Saturday will be continued a few days.

Pretty Fancy Ribbons

Very pretty too—changeable taffetas, neat Persians, plaids, and the soft wide ones now so very popular. If it is good ribbons you want, you will find them here.

COLD IN NORTHWEST

TWENTY-FOUR DEGREES BELOW ZERO RECORDED AT ST. PAUL AND VICINITY.

THE WHOLE SOUTH SUFFERS

ST. JOSEPH, MO., EXPERIENCES COLDEST DAY OF THE PRESENT WINTER.

St. Paul, Feb. 13.—Despite the fact that Observer Oliver, in charge of the United States weather bureau office in St. Paul, predicted fair and warm weather for St. Paul Monday, St. Paul shivered through cold Sunday that sent the mercury to 24 degrees below zero and a sharpness which was given added sting because of a fierce north wind that blew steadily all day long. The day was really one of the most intensely cold of the winter.

And, strangely to say, while St. Paul suffered, and Omaha, St. Joe, Mo., and the whole South suffered, the people in cities where the cold is generally most marked were enjoying fine spring weather.

Upon several occasions this winter Medicine Hat has carried off the banner for the cold. Sunday it was only zero weather at that place. And stranger yet, at Edmonton and Calgary it was much warmer, the thermometer in those cities registering 26 and 24 degrees above the zero mark. Miles City, Mont., reported only 2 degrees below zero.

Rain and sleet fell in New York Sunday and a very heavy fall of snow is reported from Indiana, Tennessee and Arkansas. St. Joseph, Mo., reports 16 degrees below zero, the coldest of the winter there.

INTENSELY COLD WEATHER.

Colorado, Wyoming and New Mexico Report Low Temperature.

Denver, Feb. 13.—Reports of intense cold, accompanied in sections by snowfall, were received at the office of the local weather bureau Sunday night from Colorado, Wyoming and New Mexico. In Southern Colorado and Northern New Mexico the worst storm since 1886 is raging. In New Mexico the storm has reached the proportions of a blizzard and great damage to stock is reported. Railroad men report the prairies along the line of the Colorado and Southern strewn with the carcasses of dead sheep and cattle. At Twin Lakes, near Leadville, 22 degrees below zero was registered Sunday night. In Wyoming the cold has not abated and much loss to livestock will result. Railroad traffic is seriously impeded and telegraph and telephone wires are being snapped by the cold.

Two Austrian miners lost their lives Sunday in a snowslide near the Irene mine at Silverton. The cabin in which they lived was wrecked.

RAILWAY TRAINS DELAYED.

Severe Condition of Temperature in Iowa and Nebraska.

Omaha, Feb. 13.—Sixteen degrees below zero was the record of the Omaha weather bureau at 9 o'clock Sunday night. Reports from over Nebraska and Western Iowa indicate a similar severe condition of temperature. Railway trains have been badly delayed. Westbound passenger No. 42 on the Burlington became stuck in the drifts near Seward, Neb., and was held for eleven hours on the prairie.

Through trains on main lines are from five to twenty hours late. The Pacific coast through express on the Burlington, was stalled at Waco, fifty miles west, and at night backed into Lincoln preceded by a snowplow. Sioux City reports that Sunday was the coldest day of the winter. The minimum temperature was 25 below zero.

COLDEST WEATHER IN YEARS.

Suffering and Death Follow Storm in Oklahoma.

Guthrie, Okla., Feb. 13.—For the past twenty-four hours Oklahoma has suffered from the coldest weather in many years. The temperature ranged at zero all Sunday. From all parts of the two territories come accounts of sufferings and death as the result of the sudden norther which began Saturday noon. The territory is covered with a coat of ice and snow ranging in depth from 3 to 8 inches. All traffic is delayed.

Cattlemen state that range stock will suffer the greatest loss in years and some place the loss as high as 30 per cent.

Great anxiety is felt for the Indian tribes who are in no condition to withstand the storm and experts say that dozens of them will die as a result of the blizzard.

BAD BLIZZARD IN TEXAS.

Cattlemen of Lone Star State Will Sustain Enormous Losses.

Fort Worth, Tex., Feb. 13.—The worst blizzard in ten years, with the thermometer at zero and below, prevails in North Texas. Coming on the heels of recent blizzards, when snow lay on the ground for twelve days, this spell of weather will inflict hundreds of thousands of dollars in losses on cattlemen. The poor in cities whose houses are not built for zero weather are suffering severely.

TWO CHILDREN DEAD.

Their Mother Dying as Result of Her Effort to End Their Lives.

Bloomfield, N. J., Feb. 13.—Because her two children, aged respectively eighteen months and three years, were afflicted with asthma, from which she herself had suffered since childhood, Mrs. Elsie Loux, after putting the little ones to bed, turned on the gas and lay down beside them to die. When the room was entered Sunday by neighbors, Mr. Loux having gone away on a visit Saturday night, the two children were dead and the mother dying. She left a letter to her husband imploring his forgiveness and saying that she had determined that it was better that she and the children should die than suffer any longer.

BAD FIRE AT MOBILE

MILLION DOLLARS' WORTH OF PROPERTY DESTROYED AND ONE LIFE LOST.

Mobile, Ala., Feb. 13.—Losses estimated at \$1,000,000 have been caused by a fire which Sunday night left the famous Battle House a ruin and swept on to buildings adjoining. The blaze was discovered shortly before midnight and at 1:30 Monday morning the firemen were still fighting with the flames, which apparently were beyond control.

The fire broke out in some unoccupied rooms over the kitchen of the Battle House, although an old hostelry, was one of the largest in the South. The flames spread so quickly that a number of guests lost all their belongings and not a few of those on the fifth floor were compelled to take to the fire escapes in their night clothes. Two elevator boys, Joseph Parks and Bernard Constantine, stuck to their posts until all the guests had been gotten out, although the elevators caught fire and the youngsters were burned about the face and hands.

At 2 a. m. the fire was still burning fiercely, threatening the Commercial hotel adjoining.

Atlanta, Ga., Feb. 13.—A long distance telephone message from Mobile says one person was killed and several seriously injured in the Battle House fire.

SENATE WAS JUSTIFIED.

According to John W. Foster, Andrew Carnegie and Wayne MacVeagh.

Washington, Feb. 13.—John W. Foster, president of the national arbitration conference, which has been conducting an active propaganda in behalf of arbitration in international disputes, made a statement bearing on the action of the senate in amending the arbitration treaties between the United States and eight European governments.

Mr. Foster said he considered the action of the senate in insisting upon the word treaty in the conventions in place of the word agreement as justified, and he gave out letters from Andrew Carnegie and Wayne MacVeagh which showed those two gentlemen took the same stand.

WILL VISIT NEW YORK.

President Roosevelt to Speak at Lincoln Birthday Celebration.

Washington, Feb. 13.—President Roosevelt will leave Washington Monday for a two days' visit to New York, during which he will make a speech at the Lincoln birthday celebration at the Waldorf-Astoria, spend a short time at the Press club banquet at the New Astor House, lunch at the University club, dine in "Little Hungary" and visit friends. Accompanying him to New York will be Mrs. Roosevelt, Secretary and Mrs. Taft, Mrs. Cowles, Mr. and Mrs. Emil Roosevelt, who have been guests at the White House, and Secretary Loeb.

Miles City, Mont., reported only 2 degrees below zero.

Rain and sleet fell in New York Sunday and a very heavy fall of snow is reported from Indiana, Tennessee and Arkansas. St. Joseph, Mo., reports 16 degrees below zero, the coldest of the winter there.

INTENSELY COLD WEATHER.

Colorado, Wyoming and New Mexico Report Low Temperature.

Denver, Feb. 13.—Reports of intense cold, accompanied in sections by snowfall, were received at the office of the local weather bureau Sunday night from Colorado, Wyoming and New Mexico. In Southern Colorado and Northern New Mexico the worst storm since 1886 is raging. In New Mexico the storm has reached the proportions of a blizzard and great damage to stock is reported. Railroad men report the prairies along the line of the Colorado and Southern strewn with the carcasses of dead sheep and cattle. At Twin Lakes, near Leadville, 22 degrees below zero was registered Sunday night. In Wyoming the cold has not abated and much loss to livestock will result. Railroad traffic is seriously impeded and telegraph and telephone wires are being snapped by the cold.

Two Austrian miners lost their lives Sunday in a snowslide near the Irene mine at Silverton. The cabin in which they lived was wrecked.

RAILWAY TRAINS DELAYED.

Severe Condition of Temperature in Iowa and Nebraska.

Omaha, Feb. 13.—Sixteen degrees below zero was the record of the Omaha weather bureau at 9 o'clock Sunday night. Reports from over Nebraska and Western Iowa indicate a similar severe condition of temperature. Railway trains have been badly delayed. Westbound passenger No. 42 on the Burlington became stuck in the drifts near Seward, Neb., and was held for eleven hours on the prairie.

Through trains on main lines are from five to twenty hours late. The Pacific coast through express on the Burlington, was stalled at Waco, fifty miles west, and at night backed into Lincoln preceded by a snowplow.

Sioux City reports that Sunday was the coldest day of the winter. The minimum temperature was 25 below zero.

COLDEST WEATHER IN YEARS.

Suffering and Death Follow Storm in Oklahoma.

Guthrie, Okla., Feb. 13.—For the past twenty-four hours Oklahoma has suffered from the coldest weather in many years. The temperature ranged at zero all Sunday. From all parts of the two territories come accounts of sufferings and death as the result of the sudden norther which began Saturday noon. The territory is covered with a coat of ice and snow ranging in depth from 3 to 8 inches. All traffic is delayed.

Cattlemen state that range stock will suffer the greatest loss in years and some place the loss as high as 30 per cent.

Great anxiety is felt for the Indian tribes who are in no condition to withstand the storm and experts say that dozens of them will die as a result of the blizzard.

BAD BLIZZARD IN TEXAS.

Cattlemen of Lone Star State Will Sustain Enormous Losses.

Fort Worth, Tex., Feb. 13.—The worst blizzard in ten years, with the thermometer at zero and below, prevails in North Texas. Coming on the heels of recent blizzards, when snow lay on the ground for twelve days, this spell of weather will inflict hundreds of thousands of dollars in losses on cattlemen. The poor in cities whose houses are not built for zero weather are suffering severely.

TWO CHILDREN DEAD.

Their Mother Dying as Result of Her Effort to End Their Lives.

Bloomfield, N. J., Feb. 13.—Because her two children, aged respectively eighteen months and three years, were afflicted with asthma, from which she herself had suffered since childhood, Mrs. Elsie Loux, after putting the little ones to bed, turned on the gas and lay down beside them to die. When the room was entered Sunday by neighbors, Mr. Loux having gone away on a visit Saturday night, the two children were dead and the mother dying. She left a letter to her husband imploring his forgiveness and saying that she had determined that it was better that she and the children should die than suffer any longer.

BAD FIRE AT MOBILE

MILLION DOLLARS' WORTH OF PROPERTY DESTROYED AND ONE LIFE LOST.

Mobile, Ala., Feb. 13.—Losses estimated at \$1,000,000 have been caused by a fire which Sunday night left the famous Battle House a ruin and swept on to buildings adjoining. The blaze was discovered shortly before midnight and at 1:30 Monday morning the firemen were still fighting with the flames, which apparently were beyond control.

The fire broke out in some unoccupied rooms over the kitchen of the Battle House, although an old hostelry, was one of the largest in the South. The flames spread so quickly that a number of guests lost all their belongings and not a few of those on the fifth floor were compelled to take to the fire escapes in their night clothes. Two elevator boys, Joseph Parks and Bernard Constantine, stuck to their posts until all the guests had been gotten out, although the elevators caught fire and the youngsters were burned about the face and hands.

At 2 a. m. the fire was still burning fiercely, threatening the Commercial hotel adjoining.

Atlanta, Ga., Feb. 13.—A long distance telephone message from Mobile says one person was killed and several seriously injured in the Battle House fire.

SENATE WAS JUSTIFIED.

According to John W. Foster, Andrew Carnegie and Wayne MacVeagh.

Washington, Feb. 13.—John W. Foster, president of the national arbitration conference, which has been conducting an active propaganda in behalf of arbitration in international disputes, made a statement bearing on the action of the senate in amending the arbitration treaties between the United States and eight European governments.

Mr. Foster said he considered the action of the senate in insisting upon the word treaty in the conventions in place of the word agreement as justified, and he gave out letters from Andrew Carnegie and Wayne MacVeagh which showed those two gentlemen took the same stand.

WILL VISIT NEW YORK.

President Roosevelt to Speak at Lincoln Birthday Celebration.

Washington, Feb. 13.—President Roosevelt will leave Washington Monday for a two days' visit to New York, during which he will make a speech at the Lincoln birthday celebration at the Waldorf-Astoria, spend a short time at the Press club banquet at the New Astor House, lunch at the University club, dine in "Little Hungary" and visit friends. Accompanying him to New York will be Mrs. Roosevelt, Secretary and Mrs. Taft, Mrs. Cowles, Mr. and Mrs. Emil Roosevelt, who have been guests at the White House, and Secretary Loeb.

per load..... **\$2.25**
16 inch Seasoned pine
per load..... **\$2.00**

BANE'S

Busy Store.

MINNESOTA LEGISLATURE.

First Saturday Session of the Year
Held by Both Houses.

St. Paul, Feb. 13.—The Minnesota
legislature held its first Saturday ses-
sion this year on Feb. 11. Senator
Thorpe's resolution protesting against
granting "drawbacks" on Canadian
whisky was passed in the house by a
large majority; three bills relating to
the care and maintenance of the new
and the old capitol were presented in
the house; another would repeal the
corrupt practices act, two others
would make the judiciary nonpartisan,
and another requires that wine made
in the state prison at Stillwater be
sold at cost.

A bill presented in the senate makes
sale or use of giant fire crackers a mis-
demeanor, another provides for a home
for crippled, deformed and indigent
children in Ramsey county, another re-
quires examination of Minneapolis, St.
Paul and Duluth city accounts by pub-
lic examiner. The senate passed S. F.
25, prohibiting the sale of wood alcohol
except when properly labelled.

Both houses adjourned to Monday.

13 Years of Intense Suffering.

Thirteen years I suffered intensely
from rheumatism writes Mrs. Mina
Schout, of Marion, Ohio, but Gloria
Tonic cured me after using morphine
and other worthless drugs for years.
Sold by H. P. Dunn & Co. mwf

LADRONE BAND HARD PRESSED.

Filipino Rebels Compelled to Release
Their Captives.

Manila, Feb. 13.—The band of la-
drones which attacked the town of
San Francisco de Malabon in the prov-
ince of Cavite Jan. 24, and captured
the wife and two children of Former
Governor Trias, is being hard pressed
by a troop of cavalry under Major E.
W. Sibley. They have released Mrs.
Trias and her two children, whom they
were holding for ransom.

Why not get it

when you can get sure relief from a
violent cough? Gloria Lung Balsam
will do this every time. It is made of
honey, tar, wild cherry, etc., and is the
best for children. Sold by H. P. Dunn
& Co.

RESERVES MUTINIOUS

RUSSIANS WHO ARE BEING MOB-
ILIZED TO FIGHT JAPS KILL
A POLICE OFFICER.

SHOT DOWN BY COSSACKS

EIGHTEEN OF THE RAW TROOPS
KILLED AND MORE THAN
EIGHTY WOUNDED.

Berlin, Feb. 13.—Whatever the dis-
position of the Russian army as a
whole may be, the army reserves in
the Russian provinces bordering on
Germany are not only disloyal but
mutinous. New and serious distur-
bances have broken out among the re-
serves and conscripts who are being
mobilized or who are being sent to the
far East. A large body of the reserves
looted shops on the outskirts of Kieff,
the great pilgrim city, which is called
the "Jerusalem of Russia." The raw
soldiers killed the officer in command
of the police who tried to restrain
them. Then a detachment of Cossacks
fired on the reserves, killing eighteen
and wounding more than eighty.

At Niefin, in the same neighbor-
hood, a regiment of reserves was about
to take the train for the seat of war.
When the train drew up these soldiers
smashed all the windows in the cars.
When orders were given to get aboard
and start the train hundreds of sol-
diers gathered in front of the locomotive
and swore they would not budge.
Some even threw themselves on the
rails, crying they would rather be
killed by a locomotive near their
homes than by the Japanese in Man-
churia.

At Hursk a party of reserves at-
tacked three officials who were direct-
ing their mobilization, killing one and
badly wounding others. After a sum-
mary trial the ringleaders were shot
in the prison yard the next morning.
In the provinces of Podolia and Vol-
hynia 300 reserves, rather than start
for the far East, fled into the woods,
where they are wandering about in
the deep snow. They must be suffer-
ing great hardships. Parties of Cos-
sacks have been sent to capture them
with strict orders to shoot them if
they resist.

FEARS NOT REALIZED

ANTICIPATED RENEWAL OF SERI-
OUS TROUBLE AT ST. PETERS-
BURG FAILS TO OCCUR.

St. Petersburg, Feb. 13.—The antici-
pated renewal of trouble among the
workmen Sunday was not realized.
Neither strikers nor students made
the slightest attempt to demonstrate
and throughout the day the city pre-
sented the usual appearance.

The emperor's creation of a joint
commission of employers and workmen
chosen by themselves to investi-
gate the charges of discontent among
the laborers has made an exceedingly
good impression, being considered defi-
nite evidence of the government's pur-
pose to compel some of the rapacious
masters who have paid starvation
wages to do justice to the employees.

The imperial decree ordering the
formation of the committee reposes
the presidency of the body in Senator
Chidlovski, a member of the council
of the empire, and instructs the com-
mittee to ascertain immediately the
causes of discontent of St. Peters-
burg's workmen and devise measures
to prevent such discontent in future.

The committee consists of repre-
sentatives of government departments,
the various industries and the work-
men.

The president is authorized to report
in person to the emperor and deter-
mine the number and mode of selec-
tion of the committee.

At the Mali theater Sunday night a
scene was created by cries of "Down
with the autocracy," and personal
abuse of the emperor. The demon-
strators were ejected from the theater.
The police continue to make arrests.

The workmen at Tiflis generally are
returning to work. The authorities
are taking measures to protect those
who are resuming labor. Trifling dis-
orders are reported at other places in
the Caucasus.

The strike continues in all of the
big factories at Warsaw, where the
coal supply is now the most urgent
question.

A message from Lodz says that all
is quiet there.

RESULTS IN A DEADLOCK.

Policy of Drift Pervades All Classes in
Russia.

London, Feb. 13.—The correspond-
ent at St. Petersburg of the Times, de-

scribing the situation, says that the
policy of drift is pervading all classes,
government, capital, labor and even
the revolutionaries, the result being
an internal deadlock.

Russia Buys Two Steamships.

London, Feb. 13.—The Times prints
the statement that the Hamburg-
American Steamship company's steam-
ships Deutschland and Hamburg are to
be sold to Russia for \$3,500,000 and
\$2,000,000 respectively.

PLEASES LIBERAL CLASSES.

News That Czar Has Endorsed Plan
to Revive the Zemsky Zabor.

St. Petersburg, Feb. 13.—The news
that Emperor Nicholas has endorsed
the scheme for the revival of the
zemsky zabor, or ancient land parlia-
ment, which the old emperors convoked
in times of stress, has spread through
the city and created intense satisfac-
tion among the liberal classes.

The newspapers are filled with ar-
ticles descriptive of this ancient Rus-
sian institution, indicating that word
had gone forth that the government
had decided to listen to the voice of
representatives of the people.

Naturally there is some skepticism
as to whether the government intends
frankly to take steps, but the general
verdict is that if the emperor has suc-
ceeded in shaking off reactionary in-
fluences and now proceeds in good
faith to summon the zemsky zabor he
will rally to his support the moderate
liberals and perhaps arouse a wave of
genuine enthusiasm in the country.
Liberals are convinced that a meeting
of such a body must be followed by
reforms.

RUSSIAN FORCES REPULSED.

Attack Village Held by Japs and Are
Beaten Back.

Tokio, Feb. 13.—Japanese Manchu-
rian headquarters telegraph that a
company of Russians attacked Waitao-
shan village on Friday night and were
repulsed. The Russian batteries on
the western foot of the Ta mountain
shelled Putsaowo on Friday. A com-
pany of Russians attacked Liuchien-
tun early Saturday morning and were
repulsed. The Russian artillery then
slowly shelled Liuchientun and vi-
cinity.

The Russians have extended their
defensive works to Liuchientun and
seem to have extended their right
along the railway to Siaofangshen,
which is about a mile and a quarter
east of Mantapao.

German Steamer Seized.

Tokio, Feb. 13.—The German steam-
er Parosa, bound for Vladivostok, was
seized off Hokkaido on Friday. Her
cargo consisted of shipbuilding ma-
terials and food stuffs.

NAVAL APPROPRIATION BILL.

Will Be the Subject of a Long Debate
in the House.

Washington, Feb. 13.—The naval
appropriation bill will be taken up by
the house on Monday as soon as leg-
islation for the District of Columbia
has been disposed of. The naval bill
is usually a subject of long debate, and
the bill this year will be attacked on
several grounds. There will be a gen-
eral discussion as to the naval policy
and issue is to be taken with the com-
mittee in its proposition for new ships.
The topic of armor plate contracts is
to fill its accustomed place on the pro-
gramme while submarine boats and
torpedo boats are to form the basis of
offensive and defensive argument. The
best estimate that can be made is that
at least four days will be consumed in
getting legislative action on this bill
in the house. It is to be followed im-
mediately by the river and harbor bill,
which has been on the calendar for
some days and usually occupies some
days, once it is taken up. Should the
decks be cleared at any time, the pro-
posed legislation of the Panama canal
project, which is the continuing order,
will be discussed.

ATTENTION OF THE SENATE.

Will Be Divided Between Swayne Case
and Appropriation Bills.

Washington, Feb. 13.—The attention
of the senate during the present week
will be divided between the Swayne
impeachment trial and the appropri-
ation bills. The trial will be taken up
each day at 2 o'clock and will continue
to receive attention until 5 o'clock.
Before and after the period between
these hours the appropriation bills
will be considered. The agricultural
appropriation bill is still under discus-
sion and as soon as it is disposed of
the bill making appropriations for the
District of Columbia will be taken up,
to be followed by the diplomatic and
consular bill.

HOCH INVESTIGATION ENDED.

Case of Bigamist Will Now Be Turned
Over to State's Attorney.

Chicago, Feb. 13.—Completion of the
police investigation into the affairs of
Johann Hoch was made Sunday and
the case now will be turned over to the
state's attorney. That Hoch is guilty
of bigamy is proved by his own admis-
sions, and now the state's lawyer will
seek evidence showing that Hoch mur-
dered one or more of his wives.

H. F. MICHAEL CO'S Daily Store News.

Advance Silk Sale Continued

With the mercury at 29 below zero we did not expect you in
even if our silk values were tempting. This cold weather is evi-
dence that the warmer will be here in due season and then you
will want the silks.

However, now is the time to buy them and make them up.
Our knowledge of values and styles causes us to use no hesitancy
in saying that what we are offering are just a little better than
you will secure soon again. Prices advertised Saturday will be
continued a few days.

Pretty Fancy Ribbons

Very pretty too—changeable taffetas, neat Persians, plaids, and
the soft wide ones now so very popular. If it is good ribbons
you want, you will find them here.

COLD IN NORTHWEST

TWENTY-FOUR DEGREES BELOW
ZERO RECORDED AT ST. PAUL
AND VICINITY.

THE WHOLE SOUTH SUFFERS

ST. JOSEPH, MO., EXPERIENCES
COLDEST DAY OF THE PRE-
SENT WINTER.

St. Paul, Feb. 13.—Despite the fact
that Observer Oliver, in charge of the
United States weather bureau office in
St. Paul, predicted fair and warm
weather for St. Paul Monday, St. Paul
shivered through cold Sunday that
sent the mercury to 24 degrees below
zero and a sharpness which was
given added sting because of a fierce
north wind that blew steadily all day
long. The day was really one of the
most intensely cold of the winter.

And, strange to say, while St. Paul
suffered, and Omaha, St. Joe, Mo., and
the whole South suffered, the people
in cities where the cold is generally
most marked were enjoying fine spring
weather.

Upon several occasions this winter
Medicine Hat has carried off the
banner for the cold. Sunday it was only
zero weather at that place. And
stranger yet, at Edmonton and Cal-
gary it was much warmer, the ther-
mometer in those cities registering 26
and 24 degrees above the zero mark.
Miles City, Mont., reported only 2 de-
grees below zero.

Rain and sleet fell in New York
Sunday and a very heavy fall of snow
is reported from Indiana, Tennessee
and Arkansas. St. Joseph, Mo., re-
ports 16 degrees below zero, the coldest
of the winter there.

INTENSELY COLD WEATHER.

Colorado, Wyoming and New Mexico

Report Low Temperature.

Denver, Feb. 13.—Reports of intense
cold, accompanied in sections by snow-
fall, were received at the office of the
local weather bureau Sunday night
from Colorado, Wyoming and New
Mexico. In Southern Colorado and
Northern New Mexico the worst storm
since 1886 is raging. In New Mexico
the storm has reached the proportions
of a blizzard and great damage to
stock is reported. Railroad men re-
port the prairies along the line of the
Colorado and Southern strewn with
the carcasses of dead sheep and cat-
tle. At Twin Lakes, near Leadville,
22 degrees below zero was registered
Sunday night. In Wyoming the cold
has not abated and much loss to live-
stock will result. Railroad traffic is
seriously impeded and telegraph and
telephone wires are being snapped by
the cold.

Two Austrian miners lost their
lives Sunday in a snowslide near the
Irene mine at Silverton. The cabin
in which they lived was wrecked.

RAILWAY TRAINS DELAYED.

Severe Condition of Temperature in
Iowa and Nebraska.

Omaha, Feb. 13.—Sixteen degrees
below zero was the record of the Oma-
ha weather bureau at 9 o'clock Sun-
day night. Reports from over Ne-
braska and Western Iowa indicate a
similar severe condition of tempera-
ture. Railway trains have been badly
delayed. Westbound passenger No.
42 on the Burlington became stuck in
the drifts near Seward, Neb., and was
held for eleven hours on the prairie.

Through trains on main lines are
from five to twenty hours late. The
Pacific coast through express on the
Burlington, was stalled at Waco, fifty
miles west, and at night backed into
Lincoln preceded by a snowplow.

Sioux City reports that Sunday was
the coldest day of the winter. The
minimum temperature was 25 below
zero.

COLDEST WEATHER IN YEARS.

Suffering and Death Follow Storm in
Oklahoma.

Guthrie, Okla., Feb. 13.—For the
past twenty-four hours Oklahoma has
suffered from the coldest weather in
many years. The temperature ranged
at zero all Sunday. From all parts of
the two territories come accounts of
sufferings and death as the result of
the sudden norther which began Sat-
urday noon. The territory is covered
with a coat of ice and snow ranging in
depth from 3 to 8 inches. All traffic
is delayed.

Cattlemen state that range stock
will suffer the greatest loss in years
and some place the loss as high as
30 per cent.

Great anxiety is felt for the Indian
tribes who are in no condition to with-
stand the storm and experts say that
dozens of them will die as a result of
the blizzard.

BAD BLIZZARD IN TEXAS.

Cattlemen of Lone Star State Will Suf-
fer Enormous Losses.

Fort Worth, Tex., Feb. 13.—The
worst blizzard in ten years, with the
thermometer at zero and below, pre-
vails in North Texas. Coming on the
heels of recent blizzards, when snow
lay on the ground for twelve days,
this spell of weather will inflict hun-
dreds of thousands of dollars in losses
on cattlemen. The poor in cities
whose houses are not built for zero
weather are suffering severely.

TWO CHILDREN DEAD.

Their Mother Dying as Result of Her
Effort to End Their Lives.

Bloomfield, N. J., Feb. 13.—Because
her two children, aged respectively
eighteen months and three years, were
afflicted with asthma, from which she
herself had suffered since childhood,
Mrs. Elsie Loux, after putting the lit-
tle ones to bed, turned on the gas and
lay down beside them to die. When
the room was entered Sunday by
neighbors, Mr. Loux having gone away
on a visit Saturday night, the two
children were dead and the mother dy-
ing. She left a letter to her husband
imploring his forgiveness and saying
that she had determined that it was
better that she and the children should
die than suffer any longer.

BAD FIRE AT MOBILE

MILLION DOLLARS' WORTH OF
PROPERTY DESTROYED AND
ONE LIFE LOST.

Mobile, Ala., Feb. 13.—Losses esti-
mated at \$1,000,000 have been caused
by a fire which Sunday night left the
famous Battle House a ruin and swept
on to buildings adjoining. The blaze
was discovered shortly before mid-
night and at 1:30 Monday morning the
firemen were still fighting with the
flames, which apparently were be-
yond control.

The fire broke out in some unoccu-
pied rooms over the kitchen of the
Battle House, although an old hostelry,
was one of the largest in the South.
The flames spread so quickly that a
number of guests lost all their belong-
ings and not a few of those on the
fifth floor were compelled to take to
the fire escapes in their night clothes.
Two elevator boys, Joseph Parks and
Bernard Constantine, stuck to their
posts until all the guests had been got-
ten out, although the elevators caught
fire and the youngsters were burned
about the face and hands.

At 2 a. m. the fire was still burning
fiercely, threatening the Commercial
hotel adjoining.

Atlanta, Ga., Feb. 13.—A long dis-
tance telephone message from Mobile
says one person was killed and several
seriously injured in the Battle House
fire.

SENATE WAS JUSTIFIED.

According to John W. Foster, Andrew
Carnegie and Wayne MacVeagh.

Washington, Feb. 13.—John W. Fos-
ter, president of the national arbitra-
tion conference, which has been con-
ducting an active propaganda in be-
half of arbitration in international
disputes, made a statement bearing on
the action of the senate in amending
the arbitration treaties between the
United States and eight European gov-
ernments.

Mr. Foster said he considered the
action of the senate in insisting upon
the word treaty in the conventions in
place of the word agreement as just-
ified, and he gave out letters from An-
drew Carnegie and Wayne MacVeagh
which showed those two gentlemen
took the same stand.

WILL VISIT NEW YORK.

President Roosevelt to Speak at Lin-
coln Birthday Celebration.

Washington, Feb. 13.—President
Roosevelt will leave Washington Mon-
day for a two days' visit to New York,
during which he will make a speech
at the Lincoln birthday celebration at
the Waldorf-Astoria, spend a short
time at the Press club banquet at the
New Astor House, lunch at the Uni-
versity club, dine in "Little Hungary"
and visit friends. Accompanying him to
New York will be Mrs. Roosevelt, Sec-
retary and Mrs. Taft, Mrs. Cowles, Mr.
and Mrs. Emil Roosevelt, who have
been guests at the White House, and
Secretary Loeb.

MONDAY, FEBRUARY 13, 1905

Weather

Forecast—Fair and continued cold.
Temperature (Record kept by Dr. J. L. Camp for 24 hours ending at 3 o'clock this afternoon)—Maximum 1 below zero; minimum below 29 zero.

A MAN by the name of Brightbill is the new public examiner of North Dakota.

If Hoch had met Cassie Chadwick in his prime all this trouble might have been averted.

What jolly days—and nights—these are for the coal man. The only regret he has is that February has only 28 days.

A BILL has been introduced in the legislature which will require the examination of city accounts by the public examiner in cities of over 50,000 inhabitants, if it becomes a law.

ASOKA has revived the old time sport of roller skating that is now undergoing a revival in Minneapolis and other down river towns. The populace get their skates on regularly down there.

ALEXANDRIA is to be honored on Wednesday with a visit from no less a personage than the Hon. Wm. Jennings Bryan. The distinguished gentleman will lecture there and the city is expecting many out of town visitors.

The editor of the Fergus Falls Globe says editorially "I think that so long as I can keep out of jail, and the poor house and the insane asylum and dodge the devil, I am doing pretty well in America." There is still a chance to go back to the old country, Bro. Boen.

IT WILL be a misdemeanor to sell giant fire crackers after July 1st, 1905, if Senator Wilson's bill becomes a law. It has been a nuisance for some time but the boys would feel better about it if the senator would make his bill read after July 4th. That would give them one more chance to lose an eye or an arm.

JANITORS in charge of heating plants do not require engineers' license according to a decision of the Minnesota supreme court. This probably relieves housewives and husbands who run heating plants but are not classed as janitors by their friends, from the same requirement.

W. C. RITCHIE has been appointed boiler inspector for Cass county and the balance of the 52d district. The Aitkin Age says Ritchie is a good democrat, and the fact is mentioned so the public will know that Gov. Johnson does not give all the credit of his election to the republicans but occasionally recognizes the party to which he belongs.

THE Bemidji saloon men are to declare a boycott on the local brewery at that place because the Bemidji Brewing Co. has served an injunction preventing the Minneapolis, Red Lake & Manitoba railway from crossing their property in that city. The ban will also be placed on the amber fluid of this Bemidji institution in outside towns if the local men can not succeed in getting the injunction raised.

THE saloon men of Wadena do not feel that they have been fairly treated in the past and they propose to punish the village which derives \$1,500 annually in licenses from them by defeating the license proposition at the town election and compel the raising of that amount by taxation with which to run the public affairs. It seems a peculiar state of affairs where the liquor interest are arrayed against what is supposed to be the temperance element, the former urging no license and the latter claiming that the saloon men should be worsted in their endeavor to make Wadena a dry town.

THE farmer members of the legislature insist that prison twine must be sold at cost and this proposition puts a damper on the proposition to build a new state prison from the profits of that institution. Nine-tenths of the profit comes from this product and as the commodity is used entirely by the farmers the new institution would practically be built by them while the fact remains that the prison is largely filled by the cities. There is no opposition to the building of a new prison, for the present one is insufficient, but the idea seems to prevail that the funds should come from a general source and not from the agricultural districts.

Fatal kidney and bladder troubles can always be prevented by the use of Foley's Kidney Cure. H. P. Dunn & Co.

LOCAL NEWS NOTES.

Fred McKay went to Little Falls this afternoon on business.

W. S. Holst left for the twin cities this afternoon on business.

G. F. Foster, the insurance man, came in from Little Falls this afternoon.

Jessie Tyler left for the coast on Sunday evening for a visit of a month or two.

Miss Gertrude Slipp returned to Duluth this afternoon after a visit in the city with relatives.

A baby girl was born last night to Mr. and Mrs. Daniel Lind. Mother and child are doing nicely.

The little baby girl of Mr. and Mrs. Frank Polk is very sick and great anxiety is felt for its recovery.

Misses Ida McCauley and Delia Guerin, of Little Falls, spent Sunday in the city the guests of Mrs. C. H. Kylo. Ernest S. Boudreau, of Little Falls, has been appointed boiler inspector for the forty-eighth district by Gov. Johnson.

Mr. and Mrs. D. L. Manning, of Vermillion, S. D., are in the city visiting at the home of Mr. and Mrs. E. J. Donahue.

A. L. Hoffman left Saturday night for Webwood, Ontario, called there by business in connection with the Shakespeare gold mine of which company he is secretary.

J. W. Mangen, of Grand Forks, N. D., is in the city visiting with old friends for a few days. He was formerly manager for the Edwards-Wood company in this city.

A letter from Boise, Idaho, contains the information of the marriage of Miss Mollie Isle and Mr. Chas. Coffield, both well known in this city. They were married at the home of the groom's brother on January 28.

Give the children Hollister's Rocky Mountain Tea this month. It makes them grow and gives them rosy cheeks. There is no other medicine in the world so good for the children. 35 cents. Tea or Tablets. H. P. Dunn & Co.

A GOOD THING

All hail to the land, on freedom bent,
That yields such flour, as OCCIDENT.
It never makes the housewife mad.
The husband works for he is glad.
Never a man, that did invent,
A better flour than OCCIDENT.

Mothers can safely give Foley's Honey and Tar to their children for coughs and colds, for it contains no opiates or other poisons. H. P. Dunn & Co.

Wanted to Come Here.

Billy Rhodes the prize ring artist, is anxious to come to Brainerd for a go with someone. He has been given a tip, so it is claimed, that Brainerd could furnish him some amusement. He is ready to fight any welterweight in the northwest.

Card tables for rent at D. M. Clark & Co. 172tf

Foley's Honey and Tar cures the cough caused by attack of a gripper. It heals the lungs. H. P. Dunn & Co.

Stop at Hotel Boardman, St. Paul, Modern and up-to-date European Hotel.

WOMEN WHO WORK

Need Strong, Vigorous Nerves.

The life of women and girls who work is at best a hard one and even under the most favorable circumstances the results often show shattered nervous systems and broken down health. To meet the conditions required of her, to sustain the extra strain and nervous tension of duties never intended for her in the plan of nature, she must use every endeavor to preserve the vitality of her nerves and the regularity of the female functions. No remedy ever offered the world has accomplished the wonderful results obtained from the use of Dr. A. W. Chase's Nerve Pills. By supplying the nerves and blood with the elements necessary to their life and activity, they cause a steady increase of natural strength to both body and mind, brighten the eyes, clear the complexion and instead of a depressed, worn-out feeling, there will be one of buoyancy and life. Dr. A. W. Chase's Nerve Pills make life worth living.

Mrs. Anna Doretz, of No. 919 Cleveland Avenue, Niagara Falls, N. Y., says: "I was overtaxed with work and completely tired out. I used to go to bed to think and worry and could not sleep as a result and I was nervous during the day. Hearing of the good effects of Dr. A. W. Chase's Nerve Pills in such afflictions I determined to try them. I got a box and they were a complete success. They toned me up quickly, I got over the nervousness and sleep freely and restful again. I am sure I am glad to recommend them." For a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every package. For sale by H. P. Dunn & Co., Central Drug Store, Nat'l Bank Bldg., Brainerd, Minn.

THE DISPATCH will be delivered at your door for 40 cents per month.

ELECTION OF OFFICERS

Members of the Ladies' Musical Club After Program Saturday Elect Officers for the Ensuing Year

The Ladies' Musical club met in regular session on Saturday afternoon. Chopin was the composer considered, chiefly. The following program was rendered:

Chopin's Life and Works.....Miss Gertrude Wallace.
Piano Solo—Polonaise No. 1, Opus 26.....Chopin
Miss Georgia Horn.

Current Events.....Mrs. D. M. Clark.

"Long Ago".....Oley Speaks
"When the Swallows Homeward Fly".....Maud Valeria White
Mrs. J. C. Atherton
(Substitute for Miss Linner and Mrs. E. O. Webb.)

Chorus—"The Moths".....Palicot
At the conclusion of the program the duties of the annual meeting were taken up. Reports from the treasurer, Mrs. H. I. Cohen and corresponding secretary, Mrs. Irma Hartley, were read and accepted. Election of officers was held and the following were chosen for the next year:

President—Mrs. C. M. Patek.
Vice President—Mrs. Follett.
Secretary—Mrs. R. F. Walters.
Cor. Secretary—Mrs. Irma Hartley.
Treasurer—Mrs. H. I. Cohen.
The social committee then served refreshments and a very pleasant hour ensued.

Would you like like to have appendicitis? Of course not. No one does. But the only sure way to prevent it is to take Dr. Adler's Treatment once or twice a week. Don't take any risks. Johnson's Pharmacy. 214tf

MISS GOLDIE LAWRENCE DEAD

Was Born and Raised Here and Was Very Well Known—Date of Funeral Will Be Announced Later

Miss Goldie Lawrence died this morning at the home of Mr. and Mrs. Frank B. Bennett after an illness of several months. The cause of death was tubercular meningitis.

Miss Lawrence was 19 years of age and was born and raised in this city. She was the daughter of the late Mr. and Mrs. Thos. Lawrence, who were well known residents here.

Some months ago she moved to Minneapolis where she made her home, but ill health overtook her and she was brought back to Brainerd and lived for a time with Mr. and Mrs. Frank B. Bennett. Mrs. Bennett, her sister, attended to all her wants during the last weeks of her illness with a sister's solicitude and everything was done for her that could be done.

Besides Mrs. Bennett, there is another sister, Mrs. A. L. Finman, of Chicago, and a brother, J. T. Lawrence, of Minneapolis, to mourn her demise.

The funeral will be held at the First Baptist church, Rev. W. H. Walker, officiating, the date to be announced later when the relatives from out of the city are heard from.

The most reliable preparation for kidney troubles on the market is Foley's Kidney Cure. H. P. Dunn & Co.

Keeping House in St. Petersburg.

In St. Petersburg housekeeping costs more, it is said, than in the other European capitals. To begin with, nothing can be bought without bargaining, and those who are skillful in the art have the advantage over their neighbors. If you know how to get on the soft side of a Russian tradesman and ply him with proverbs and jokes you can cut his price down to the narrowest margin of profit; otherwise he simply robs you. Indeed, he cannot well do otherwise, because not only a trick of the trade, but an unwritten law, obliges him to ask for his wares from 30 to 40 per cent more than he expects. He himself would be astonished if you would take him at his word. Then, again, of course, a great deal depends on the choice of shops. One of the most satisfactory ways of buying provisions is not to visit any shops, but to repair to the open air markets. In certain public squares of the capitals little stalls are fixed up every morning, and here fruit, vegetables, meat, poultry, hardware and haberdashery can be bought up to noon. But at the strike of 12 every booth and stall vanishes.

The Black of the Eye.

The invariable blackness of the pupil of the eye was a puzzle to scientific men until Professor Helmholtz showed it to be the necessary effect of refraction. Sufficient rays are reflected from the bottom of the eye to render visible the parts there situated, but since these reflected rays in emerging from the eye must traverse the same ocular media through which they passed in entering the eye it is evident that they must undergo the same refraction which they underwent as entering rays, only in an opposite direction. The result of this is that the paths of the emerging and entering rays coincide, and the former will therefore return to the source whence as incidental rays they originally started. There is nothing in the pupil to reflect light—in fact, it resembles a window looking into a dark room.

Forbear and Forgive.

Do not expect too much from others, but remember that all have some ill nature, whose occasional outcropping we must expect, and that we must forbear and forgive, as we often desire forbearance and forgiveness ourselves.

THEY CELEBRATE GOLDEN WEDDING

Home of Mr. and Mrs. Chas. Metcalf Scene of Joyous Gathering Saturday Night

THE BEAUTIFUL DECORATIONS

Were Recipients of Many Very Costly and Beautiful Presents From Friends

Having lived together for half a century Mr. and Mrs. Chas. Metcalf are entitled to congratulations and the very successful affair of Saturday evening, when some 100 friends of the old couple gathered at their home to pay their respects was an event of more than ordinary interest. The home was beautifully decorated for the occasion. The dining room and parlors were decorated with a profusion of yellow daffodils and the punch room was done in pink and red, carnations being used in large quantities. Throughout the house asparagus vines were used in large quantities to decorate the rooms, and here and there were hung electric globes dimmed with yellow tissue paper which made a very pleasing effect. In the front parlor where Mr. and Mrs. Metcalf received there was a bank of palms and potted plants.

The table in the dining room was most delightfully decorated. Yellow streamers were strung from the four corners of the table to the corners of the room.

Mr. and Mrs. Metcalf were assisted in receiving by the members of the family, Mr. and Mrs. Fred Metcalf and children, of Grand Forks and Mr. and Mrs. F. H. Campbell, of Minneapolis.

In the dining room Mesdames Julia K. McFadden, J. K. Pierce, Jennie Grewcock and E. B. McCullough presided over the tables, assisted by the Misses Grewcock, Mitchell, Keene and Parker.

Mrs. Theviot and Mrs. Canfield presided over the punch bowl assisted by Miss Pearce.

Mrs. Metcalf, who was the center of interest, was dressed in a gown made of French grey crepe, trimmed with duchess lace collar and cuffs and white chiffon.

The many presents received by the happy couple were an indication of the high esteem they are held in. One of the very kindly remembrances was that of a box of orange blossoms from Mr. and Mrs. S. L. Bean of California. Another was a purse of \$75 in gold from some friends. The presents were all costly and beautiful. The event was a most charming affair.

Hundreds of thousands of people use Hollister's Rocky Mountain Tea as a family tonic. If taken this month it will keep the family well all summer. If it fails get your money back. 35 cents, H. P. Dunn & Co.

The Mill Will Run.

The Bemidji Sentinel says: The Brainerd mill will be operated the coming season. Superintendent Cook, who was in town yesterday says he has bought enough logs to keep the mill running until snow flies.

Mothers be careful of your children. There is no baby medicine in the world as good as Hollister's Rock Mountain Tea. It makes the little ones strong, healthy and active 35 cents. H. P. Dunn & Co.

Care of Birds.

In an English treatise on the "Hygiene of Bird Keeping," by George Creswell, attention is called to the thoughtless practice of hanging birds in cages just above the level of the sashes of windows and to the mistaken kindness of hanging a cage in a corner of a sitting room or a kitchen near the ceiling. In the one case the bird is subjected to drafts and will in all probability develop catarrh and bronchitis, and in the other it lives in a vitiated atmosphere.

MONDAY, FEBRUARY 13, 1905

Weather

Forecast—Fair and continued cold.

Temperature (Record kept by Dr. J. L. Camp for 24 hours ending at 3 o'clock this afternoon)—Maximum 1 below zero; minimum below 29 zero.

A MAN by the name of Brightbill is the new public examiner of North Dakota.

If Hoch had met Cassie Chadwick in his prime all this trouble might have been averted.

WHAT jolly days—and nights—these are for the coal man. The only regret he has is that February has only 28 days.

A BILL has been introduced in the legislature which will require the examination of city accounts by the public examiner in cities of over 50,000 inhabitants, if it becomes a law.

ANOKA has revived the old time sport of roller skating that is now undergoing a revival in Minneapolis and other down river towns. The populace get their skates on regularly down there.

ALEXANDRIA is to be honored on Wednesday with a visit from no less a personage than the Hon. Wm. Jennings Bryan. The distinguished gentleman will lecture there and the city is expecting many out of town visitors.

THE editor of the Fergus Falls Globe says editorially "I think that so long as I can keep out of jail, and the poor house and the insane asylum and dodge the devil, I am doing pretty well in America." There is still a chance to go back to the old country, Bro. Boen.

IT WILL be a misdemeanor to sell giant fire crackers after July 1st, 1905, if Senator Wilson's bill becomes a law. It has been a nuisance for some time but the boys would feel better about it if the senator would make his bill read after July 4th. That would give them one more chance to lose an eye or an arm.

JANITORS in charge of heating plants do not require engineers' license according to a decision of the Minnesota supreme court. This probably relieves housewives and husbands who run heating plants but are not classed as janitors by their friends, from the same requirement.

W. C. RITCHIE has been appointed boiler inspector for Cass county and the balance of the 52d district. The Aitkin Age says Ritchie is a good democrat, and the fact is mentioned so the public will know that Gov. Johnson does not give all the credit of his election to the republicans but occasionally recognizes the party to which he belongs.

THE Bemidji saloon men are to declare a boycott on the local brewery at that place because the Bemidji Brewing Co. has served an injunction preventing the Minneapolis, Red Lake & Manitoba railway from crossing their property in that city. The ban will also be placed on the amber fluid of this Bemidji institution in outside towns if the local men can not succeed in getting the injunction raised.

THE saloon men of Wadena do not feel that they have been fairly treated in the past and they propose to punish the village which derives \$4,500 annually in licenses from them by defeating the license proposition at the town election and compel the raising of that amount by taxation with which to run the public affairs. It seems a peculiar state of affairs where the liquor interest are arrayed against what is supposed to be the temperance element, the former urging no license and the latter claiming that the saloon men should be worsted in their endeavor to make Wadena a dry town.

THE farmer members of the legislature insist that prison twine must be sold at cost and this proposition puts a damper on the proposition to build a new state prison from the profits of that institution. Nine-tenths of the profit comes from this product and as the commodity is used entirely by the farmers the new institution would practically be built by them while the fact remains that the prison is largely filled by the cities. There is no opposition to the building of a new prison, for the present one is insufficient, but the idea seems to prevail that the funds should come from a general source and not from the agricultural districts.

Fatal kidney and bladder troubles can always be prevented by the use of Foley's Kidney Cure. H. P. Dunn & Co.

LOCAL NEWS NOTES.

Fred McKay went to Little Falls this afternoon on business.

W. S. Holst left for the twin cities this afternoon on business.

G. F. Foster, the insurance man, came in from Little Falls this afternoon.

Jessie Tyler left for the coast on Sunday evening for a visit of a month or two.

Miss Gertrude Slipp returned to Duluth this afternoon after a visit in the city with relatives.

A baby girl was born last night to Mr. and Mrs. Daniel Lind. Mother and child are doing nicely.

The little baby girl of Mr. and Mrs. Frank Polk is very sick and great anxiety is felt for its recovery.

Misses Ida McCauley and Delia Guerin, of Little Falls, spent Sunday in the city the guests of Mrs. C. H. Kylo.

Ernest S. Boudreau, of Little Falls, has been appointed boiler inspector for the forty-eighth district by Gov. Johnson.

Mr. and Mrs. D. L. Manning, of Vermillion, S. D., are in the city visiting at the home of Mr. and Mrs. E. J. Donahue.

A. L. Hoffman left Saturday night for Webwood, Ontario, called there by business in connection with the Shakespeare gold mine of which company he is secretary.

J. W. Mangen, of Grand Forks, N. D., is in the city visiting with old friends for a few days. He was formerly manager for the Edwards-Wood company in this city.

A letter from Boise, Idaho, contains the information of the marriage of Miss Mollie Isle and Mr. Chas. Coffield, both well known in this city. They were married at the home of the groom's brother on January 28.

Give the children Hollister's Rocky Mountain Tea this month. It makes them grow and gives them rosy cheeks. There is no other medicine in the world so good for the children. 35 cents. Tea or Tablets. H. P. Dunn & Co.

A GOOD THING

All hail to the land, on freedom bent,
That yields such flour, as OCCIDENT.
It never makes the housewife mad.
The husband works for he is glad.
Never a man, that did invent,
A better flour than OCCIDENT.

Mothers can safely give Foley's Honey and Tar to their children for coughs and colds, for it contains no opiates or other poisons. H. P. Dunn & Co.

Wanted to Come Here.

Billy Rhodes the prize ring artist, is anxious to come to Brainerd for a go with someone. He has been given a tip, so it is claimed, that Brainerd could furnish him some amusement. He is ready to fight any welterweight in the northwest.

MONDAY, FEBRUARY 13, 1905

Weather

Forecast—Fair and continued cold.

Temperature (Record kept by Dr. J. L. Camp for 24 hours ending at 3 o'clock this afternoon)—Maximum 1 below zero; minimum below 29 zero.

A MAN by the name of Brightbill is the new public examiner of North Dakota.

If Hoch had met Cassie Chadwick in his prime all this trouble might have been averted.

WHAT jolly days—and nights—these are for the coal man. The only regret he has is that February has only 28 days.

A BILL has been introduced in the legislature which will require the examination of city accounts by the public examiner in cities of over 50,000 inhabitants, if it becomes a law.

ANOKA has revived the old time sport of roller skating that is now undergoing a revival in Minneapolis and other down river towns. The populace get their skates on regularly down there.

ALEXANDRIA is to be honored on Wednesday with a visit from no less a personage than the Hon. Wm. Jennings Bryan. The distinguished gentleman will lecture there and the city is expecting many out of town visitors.

THE editor of the Fergus Falls Globe says editorially "I think that so long as I can keep out of jail, and the poor house and the insane asylum and dodge the devil, I am doing pretty well in America." There is still a chance to go back to the old country, Bro. Boen.

IT WILL be a misdemeanor to sell giant fire crackers after July 1st, 1905, if Senator Wilson's bill becomes a law. It has been a nuisance for some time but the boys would feel better about it if the senator would make his bill read after July 4th. That would give them one more chance to lose an eye or an arm.

JANITORS in charge of heating plants do not require engineers' license according to a decision of the Minnesota supreme court. This probably relieves housewives and husbands who run heating plants but are not classed as janitors by their friends, from the same requirement.

W. C. KITCHIE has been appointed boiler inspector for Cass county and the balance of the 52d district. The Aitkin Age says Ritchie is a good democrat, and the fact is mentioned so the public will know that Gov. Johnson does not give all the credit of his election to the republicans but occasionally recognizes the party to which he belongs.

THE Bemidji saloon men are to declare a boycott on the local brewery at that place because the Bemidji Brewing Co. has served an injunction preventing the Minneapolis, Red Lake & Manitoba railway from crossing their property in that city. The ban will also be placed on the amber fluid of this Bemidji institution in outside towns if the local men can not succeed in getting the injunction raised.

THE saloon men of Wadena do not feel that they have been fairly treated in the past and they propose to punish the village which derives \$4,500 annually in licenses from them by defeating the license proposition at the town election and compel the raising of that amount by taxation with which to run the public affairs. It seems a peculiar state of affairs where the liquor interest are arrayed against what is supposed to be the temperance element, the former urging no license and the latter claiming that the saloon men should be worsted in their endeavor to make Wadena a dry town.

THE former members of the legislature insist that prison twine must be sold at cost and this proposition puts a damper on the proposition to build a new state prison from the profits of that institution. Nine-tenths of the profit comes from this product and as the commodity is used entirely by the farmers the new institution would practically be built by them while the fact remains that the prison is largely filled by the cities. There is no opposition to the building of a new prison, for the present one is insufficient, but the idea seems to prevail that the funds should come from a general source and not from the agricultural districts.

Fatal kidney and bladder troubles can always be prevented by the use of Foley's Kidney Cure. H. P. Dunn & Co.

LOCAL NEWS NOTES.

Fred McKay went to Little Falls this afternoon on business.

W. S. Holst left for the twin cities this afternoon on business.

G. F. Foster, the insurance man, came in from Little Falls this afternoon.

Jessie Tyler left for the coast on Sunday evening for a visit of a month or two.

Miss Gertrude Slipp returned to Duluth this afternoon after a visit in the city with relatives.

A baby girl was born last night to Mr. and Mrs. Daniel Lind. Mother and child are doing nicely.

The little baby girl of Mr. and Mrs. Frank Polk is very sick and great anxiety is felt for its recovery.

Misses Ida McCauley and Delia Guerin, of Little Falls, spent Sunday in the city the guests of Mrs. C. H. Kylio. Ernest S. Boudreau, of Little Falls, has been appointed boiler inspector for the forty-eighth district by Gov. Johnson.

Mr. and Mrs. D. L. Manning, of Vermillion, S. D., are in the city visiting at the home of Mr. and Mrs. E. J. Donahue.

A. L. Hoffman left Saturday night for Webwood, Ontario, called there by business in connection with the Shakespeare gold mine of which company he is secretary.

J. W. Mangen, of Grand Forks, N. D., is in the city visiting with old friends for a few days. He was formerly manager for the Edwards-Wood company in this city.

A letter from Boise, Idaho, contains the information of the marriage of Miss Mollie Isle and Mr. Chas. Coffield, both well known in this city. They were married at the home of the groom's brother on January 28.

Give the children Hollister's Rocky Mountain Tea this month. It makes them grow and gives them rosy cheeks. There is no other medicine in the world so good for the children. 35 cents. Tea or Tablets. H. P. Dunn & Co.

A GOOD THING

All hail to the land, on freedom bent,
That yields such flour, as OCCIDENT.
It never makes the housewife mad.
The husband works for he is glad.
Never a man, that did invent,
A better flour than OCCIDENT.

Mothers can safely give Foley's Honey and Tar to their children for coughs and colds, for it contains no opiates or other poisons. H. P. Dunn & Co.

Wanted to Come Here.

Billy Rhodes the prize ring artist, is anxious to come to Brainerd for a go with someone. He has been given a tip, so it is claimed, that Brainerd could furnish him some amusement. He is ready to fight any welterweight in the northwest.

Foley's Honey and Tar cures the cough caused by attack of la grippe. It heals the lungs. H. P. Dunn & Co.

Stop at Hotel Boardman, St. Paul, Modern and up-to-date European Hotel.

WOMEN WHO WORK

Need Strong, Vigorous Nerves.

The life of women and girls who work is at best a hard one and even under the most favorable circumstances the results often show shattered nervous systems and broken down health. To meet the conditions required of her, to sustain the extra strain and nervous tension of duties never intended for her in the plan of nature, she must use every endeavor to preserve the vitality of her nerves and the regularity of the female functions. No remedy ever offered the world has accomplished the wonderful results obtained from the use of Dr. A. W. Chase's Nerve Pills. By supplying the nerves and blood with the elements necessary to their life and activity, they cause a steady increase of natural strength to both body and mind, brighten the eyes, clear the complexion and instead of a depressed, worn-out feeling, there will be one of buoyancy and life. Dr. A. W. Chase's Nerve Pills make life worth living.

Mrs. Anna Boretz, of No. 919 Cleveland Avenue, Niagara Falls, N. Y., says: "I was overtaxed with work and completely tired out. I used to go to bed to think and worry and could not sleep as a result and I was nervous during the day. Hearing of the good effects of Dr. A. W. Chase's Nerve Pills in such afflictions I determined to try them. I got a box and they were a complete success. They toned me up quickly, I got over the nervousness and sleep finely and restful again. I am sure I am glad to recommend them." 50c a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every package.

For sale by H. P. Dunn & Co., Central Drug Store, Nat'l Bank Bldg., Brainerd, Minn.

The DISPATCH will be delivered at your door for 40 cents per month.

ELECTION OF OFFICERS

Members of the Ladies' Musical Club After Program Saturday Elect Officers

for the Ensuing Year

The Ladies' Musical club met in regular session on Saturday afternoon. Chopin was the composer considered, chiefly. The following program was rendered:

Chopin's Life and Works.....Miss Gertrude Wallace.
Piano Solo—Polonaise No. 1, Opus 26.....Chopin
Miss Georgia Horn.

Current Events.....Mrs. D. M. Clark.

"Long Ago".....Oley Speaks
(When the Swallows Homeward Fly).....Maud Valeria White
Mrs. J. C. Atherton
(Substitute for Miss Linner and Mrs. E. O. Webb.)

Chorus—"The Moths".....Palicot
At the conclusion of the program the duties of the annual meeting were taken up. Reports from the treasurer, Mrs. H. I. Cohen and corresponding secretary, Mrs. Irma Hartley, were read and accepted. Election of officers was held and the following were chosen for the next year:

President—Mrs. C. M. Patek.
Vice President—Mrs. Follett.
Secretary—Mrs. R. F. Walters.
Cor. Secretary—Mrs. Irma Hartley.
Treasurer—Mrs. H. I. Cohen.
The social committee then served refreshments and a very pleasant hour ensued.

Would you like like to have appendicitis? Of course not. No one does. But the only sure way to prevent it is to take Dr. Adler's Treatment once or twice a week. Don't take any risks. Johnson's Pharmacy. 214tf

MISS GOLDIE LAWRENCE DEAD

Was Born and Raised Here and Was Very Well Known—Date of Funeral Will Be Announced Later

Miss Goldie Lawrence died this morning at the home of Mr. and Mrs. Frank B. Bennett after an illness of several months. The cause of death was tubercular meningitis.

Miss Lawrence was 19 years of age and was born and raised in this city. She was the daughter of the late Mr. and Mrs. Thos. Lawrence, who were well known residents here.

Some months ago she moved to Minneapolis where she made her home, but ill health overtook her and she was brought back to Brainerd and lived for a time with Mr. and Mrs. Frank B. Bennett. Mrs. Bennett, her sister, attended to all her wants during the last weeks of her illness with a sister's solicitude and everything was done for her that could be done.

Besides Mrs. Bennett, there is another sister, Mrs. A. L. Finnman, of Chicago, and a brother, J. T. Lawrence, of Minneapolis, to mourn her demise.

The funeral will be held at the First Baptist church, Rev. W. H. Walker, officiating, the date to be announced later when the relatives from out of the city are heard from.

The most reliable preparation for kidney troubles on the market is Foley's Kidney Cure. H. P. Dunn & Co.

Keeping House in St. Petersburg.

In St. Petersburg housekeeping costs more, it is said, than in the other European capitals. To begin with, nothing can be bought without bargaining, and those who are skillful in the art have the advantage over their neighbors. If you know how to get on the soft side of a Russian tradesman and ply him with proverbs and jokes you can cut his price down to the narrowest margin of profit; otherwise he simply robs you. Indeed, he cannot well do otherwise, because not only a trick of the trade, but an unwritten law, obliges him to ask for his wares from 30 to 40 per cent more than he expects. He himself would be astonished if you would take him at his word. Then, again, of course, a great deal depends on the choice of shops. One of the most satisfactory ways of buying provisions is not to visit any shops, but to repair to the open air markets. In certain public squares of the capitals little stalls are fixed up every morning, and here fruit, vegetables, meat, poultry, hardware and haberdashery can be bought up to noon. But at the strike of 12 every booth and stall vanishes.

The Black of the Eye.

The invariable blackness of the pupil of the eye was a puzzle to scientific men until Professor Helmholtz showed it to be the necessary effect of refraction. Sufficient rays are reflected from the bottom of the eye to render visible the parts there situated, but since these reflected rays in emerging from the eye must traverse the same ocular media through which they passed in entering the eye it is evident that they must undergo the same refraction which they underwent as entering rays, only in an opposite direction. The result of this is that the paths of the emerging and entering rays coincide, and the former will therefore return to the source whence as incidental rays they originally started. There is nothing in the pupil to reflect light—in fact, it resembles a window looking into a dark room.

Forbear and Forgive.

Do not expect too much from others, but remember that all have some ill nature, whose occasional outcropping we must expect, and that we must forbear and forgive, as we often desire forbearance and forgiveness ourselves.

THEY CELEBRATE

GOLDEN WEDDING

Home of Mr. and Mrs. Chas. Metcalf Scene of Joyous Gathering Saturday Night

THE BEAUTIFUL DECORATIONS

Were Recipients of Many Very Costly and Beautiful Presents From Friends

Having lived together for half a century Mr. and Mrs. Chas. Metcalf are entitled to congratulations and the very successful affair of Saturday evening, when some 100 friends of the old couple gathered at their home to pay their respects was an event of more than ordinary interest. The home was beautifully decorated for the occasion. The dining room and parlors were decorated with a profusion of yellow daffodils and the punch room was done in pink and red, carnations being used in large quantities. Throughout the house asparagus vines were used in large quantities to decorate the rooms, and here and there were hung electric globes dimmed with yellow tissue paper which made a very pleasing effect. In the front parlor where Mr. and Mrs. Metcalf received there was a bank of palms and potted plants.

The table in the dining room was most delightfully decorated. Yellow streamers were strung from the four corners of the table to the corners of the room.

Mr. and Mrs. Metcalf were assisted in receiving by the members of the family, Mr. and Mrs. Fred Metcalf and children, of Grand Forks and Mr. and Mrs. F. H. Campbell, of Minneapolis.

In the dining room Mesdames Julia K. McFadden, J. K. Pierce, Jennie Grewox and E. B. McCullough presided over the tables, assisted by the Misses Grewox, Mitchell, Keene and Parker.

Mrs. Theviot and Mrs. Canfield presided over the punch bowl assisted by Miss Pearce.

Mrs. Metcalf, who was the center of interest, was dressed in a gown made of French grey crepe, trimmed with duchess lace collar and cuffs and white chiffon.

The many presents received by the happy couple were an indication of the high esteem they are held in. One of the very kindly remembrances was that of a box of orange blossoms from Mr. and Mrs. S. L. Bean of California. Another was a purse of \$75 in gold from some friends. The presents were all costly and beautiful. The event was a most charming affair.

Hundreds of thousands of people use Hollister's Rocky Mountain Tea as a family tonic. If taken this month it will keep the family well all summer. If it fails get your money back. 35 cents. H. P. Dunn & Co.

The Mill Will Run.

The Bemidji Sentinel says: The Brainerd mill will be operated the coming season. Superintendent Cook, who was in town yesterday says he has bought enough logs to keep the mill running until snow flies.

Mothers be careful of your children. There is no baby medicine in the world as good as Hollister's Rock Mountain Tea. It makes the little ones strong, healthy and active 35 cents. H. P. Dunn & Co.

Care of Birds.

In an English treatise on the "Hygiene of Bird Keeping," by George Creswell, attention is called to the thoughtless practice of hanging birds in cages just above the level of the sashes of windows and to the mistaken kindness of hanging a cage in a corner of a sitting room or a kitchen near the ceiling. In the one case the bird is subjected to drafts and will in all probability develop catarrh and bronchitis, and in the other it lives in a vitiated atmosphere.

FARMERS TO BUILD A FERRY

Stoney Brook Farmers Making
Preparations to Build a Ferry
Boat on Gull Lake

WILL BE A DOUBLE DECKER
To be Equipped with Two Gasoline
Engines with Thirty-two
Horse Power

The farmers of Stoney Brook country have started a movement looking to the launching on Gull Lake early in the spring of a large ferry boat which will be used to haul them and their teams across the lake, saving a long trip around when they want to come to Brainerd.

J. M. Hayes, well known in this city, is at the head of the movement and L. W. Sherlund has been preparing a sketch of the boat to be sent away to designers so that the cost etc., can be figured out. If present plans carry the boat will be 80 feet from stern to bow and will be twenty feet wide. She will be a double decker and will be equipped with two gasoline engines with a total capacity of thirty-two horse power. It is planned now to use the hurricane deck for passengers and the lower deck will be so arranged that teams can be driven on. The plans allow enough space on the first deck for ten teams.

This will be a great saving in time and labor for the farmers north of Gull Lake. A company is to be organized to take charge of the affairs connected with the ferry.

When not in use hauling farmers across the lake the boat will be utilized for pleasure seekers and in this manner the projectors expect to reap considerable profit on the side. The plans were sent to the builders in the east last night. It is estimated that the boat will cost from \$2,500 to \$3,000.

Pneumonia and LaGrippe.
Coughs cured quickly by Foley's Honey and Tar. H. P. Dunn & Co. mfw

BIG EXCITEMENT

Many in This City interested in the
Shakespeare Mine at Webwood, Ont.,
Hear Some Good News.

The following telegram from Webwood, Ont., sent to the Minneapolis Journal will be interesting news to many in Brainerd:

"There is a big gold excitement at Webwood, caused by the opening operations of one of the new mines. The average so far claimed is \$45 pure gold to the ton. A shaft is down 150 feet, \$5,000,000 gold in sight without going lower. It is expected that as soon as the snow goes off there will be a big rush of prospectors."

The prevention of consumption is entirely a question of commencing the proper treatment in time. Nothing is so well adapted to ward off fatal lung troubles as Foley's Honey and Tar. H. P. Dunn & Co. mfw

Brainerd Art Club

The Brainerd Art club will meet tomorrow evening at the library building at 8 o'clock when the following program will be rendered:

Roll Call.....Current Art Topic
Greek Painting (Book Review).....Miss Moulton
Greek Religion.....Miss Merritt
Greek Mythology.....Miss Kingsford

BACK GIVES OUT

Plenty of Brainerd Readers Have this
Experience.

You tax the kidneys—overwork them. They can't keep up the continual strain. The back gives out—it aches and pains.

Urinary troubles set in. Don't wait longer—take Doan's Kidney Pills. Brainerd people tell you how they act.

Oscar Oppgaard, employed in the N. P. shops and living at 611 Tenth St. S., Brainerd, Minn., says: "I speak from experience when I say that Doan's Kidney Pills are most effective in removing backache and toning up and regulating the kidneys. Being in need of such a remedy I went to H. P. Dunn & Co.'s drug store and got a box of Doan's Kidney Pills. From the prompt results received through their use I am thoroughly convinced that Doan's Kidney Pills are all that they are claimed to be."

Sold for 50 cents a box by H. P. Dunn & Co., and all druggists. Foster Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

Stockholders' Meeting.

Stockholders of the Copper Hill M. & M. Co., will meet at the old library room in the depot on Tuesday, Feb. 14, at 7:30 p. m. Every stockholder should be at this meeting as business of very great importance will come up and must be settled before February 25th. If your stock is paid for come out to this meeting and help us to save the property.

On motion duly carried the amount of bond of T. W. Gibson of deputy coroner be fixed in the sum of \$500.

On motion duly carried the sum of one thousand dollars be transferred to the county revenue fund from the road and bridge fund, said amount to be retransferred to said road and bridge fund from the March settlement.

Moved and duly carried, that the bill of Sheriff Erickson in the sum of \$332.95 be referred back for correction in accordance with the county attorney's opinion attached thereto.

Petition for a county road in the towns of 134, range 28 and 29, and town of Lake Edwards was read and the chairman appointed. Commissioners Erickson and Gardner as committee to report on same and hearing on said petition to be had at a meeting of the board on April 4th next.

Commissioner Gardner offered the following resolution and moved its adoption:

Whereas, A petition bearing date the 31st day of December 1904, signed by

John Peterson, Nels Larson, Jack Sorinson and T. T. Blackburn praying for the establishment of a certain ditch in said county, the route of which is more fully described in said petition, and a proper bond accompanying the same, have been filed with the county auditor of said county, as by law required;

And Whereas, It appears, by satisfactory proof to the board of county commissioners of Crow Wing county, that due notice of the pendency of said petition, and the time and place at which the same would be heard, has been given as required by law;

Now, Therefore, We, the board of county commissioners of said county, at a special session held this day, do hereby appoint J. F. Bartlett as a competent and experienced engineer to make an accurate survey of the line of said ditch from its source to its outlet, as provided and specified in and by Chapter 258 of the General Laws of 1901, as amended by Chapter 33, General Laws of 1902, and after completing his duties as such engineer to make and file his report with the county auditor of said county, on or before the 25th day of February 1905.

Whereupon said resolution was unanimously adopted.

Commissioner Erickson offered the following resolution and moved its adoption:

Whereas, A petition, bearing date the 18th day of March, A. D. 1904, signed by Robert Potter, Wm. Gildart, Nalbert LaFond, H. M. Bouck, P. E. Gelow, Rowland LaFlamme, Paul Pipin, One-sine Vacasse, A. S. and A. R. Lindberg and Peter Dechaine praying for the establishment of ditch in said county, the route of which is fully described in said petition, together with a proper bond accompanying the same, has been filed with the county auditor of said county;

and said county auditor has given due notice of the pendency of said petition, and the said notice has been published and served as by law required, and hearing had on said petition pursuant to said notice; and the said county commissioners of said county have heretofore duly appointed a competent engineer, to wit, J. F. Bartlett to make a survey of said ditch, and said engineer has qualified according to law and has made and filed his report in said matter,

Now, Therefore, We, the board of county commissioners of said county, at a session held this day, do hereby appoint Thomas Barker and C. H. Clute and Lewis E. Garrison three resident freeholders of said county, who are not interested in the construction of said proposed work, and not of kin to any of the parties interested therein, to be viewers of said proposed work and of the route thereof, and do hereby specify Monday the 20th day of February, A. D. 1905, at the auditor's office, in the court house at 2 o'clock p. m., in said county as the time and place for said viewers to meet preparatory to commencing their duties as such viewers. The said viewers shall first take an oath to faithfully perform their duties as such viewers; and thereafter, having received a certified copy of the petition for said ditch and of the order appointing them such viewers from the county auditor of said county, shall meet at the time and place herein specified, and accompanied by said engineer appointed herein, shall proceed to view said proposed work; and, having completed said view and examination of said work, shall make and file their report thereof with said county auditor of said county on or before the 25th day of February, A. D. 1905. In said report they shall in tabular form give the names of the owners of each tract of land to be benefited or damaged by said proposed work, the description of each tract of land so benefited or damaged (said names of owners to be the same as appear on the county tax duplicates of said county, and the description to be given in legal form), and the total number of acres in each of said tracts, the estimated number of acres in each tract of land to be benefited or damaged (as the case may be) and the amount that each tract of land will be benefited or damaged by the construction of said work. In case said ditch drains, either in whole or in part, any public or corporate road or railroad, or benefits any of such road so that the roadbed or traveled track of any such road will be made better by the construction of said ditch, said viewers shall estimate the benefits arising therefrom to said road, roadbeds or railroads, and report said benefits, together with the names of roads and other particulars necessary to identify the corporations, private or public, to be benefited thereby, and amounts of benefits to each; they shall also report the total estimated benefits in respect to said ditch entire, and branches thereof, if any, and also whether or not, in their opinion, the estimated expense of the construction of said ditch, including the damages assessed therefor, is greater than the utility of said proposed ditch; and whether or not said proposed ditch is impracticable for any reason, and, if so, stating the reason why it should not be constructed. In making said view and survey of said proposed work and their report thereon, the said viewers shall proceed according to Chapter 258 of the General Laws of 1901, as amended by Chapter 38 of the General Laws of 1902, extra session, and all other acts amendatory thereof.

Whereupon same was adopted by a unanimous vote.

Nine Nations

Now Use Liquozone. Won't You Try It—Free?

Millions of people, of nine different nations, are constant users of Liquozone. Some are using it to get well, some to keep well. Some to cure germ diseases; some as a tonic. No medicine was ever so widely employed. These users are everywhere; your neighbors and friends are among them. And half the people you meet—wherever you are—know someone whom Liquozone has cured.

If you need help, please ask some of these users what Liquozone does. Don't blindly take medicine for what medicine cannot do. Drugs never kill germs. For your own sake, ask about Liquozone; then let us buy you a full-size bottle to try.

We Paid \$100,000

For the American rights to Liquozone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquozone destroys the cause of any germ disease.

Liquozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the

most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Liquozone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma
Abscess—Anemia
Bronchitis
Blood Poison
Bright's Disease
Bowel Troubles
Cough—Colds
Consumption
Colic—Cramp
Constipation
Catarrh—Cancer
Dysentery—Diarrhea

FOR USE AS EVIDENCE

GOVERNMENT CONSIDERS A LETTER WRITTEN BY OREGON SENATOR VALUABLE.

WAS SENT TO HIS PARTNER

MISSIVE HELD TO SHOW LINE OF TESTIMONY MITCHELL WANTED TANNER TO GIVE.

Portland, Ore., Feb. 13.—Among the papers brought by Senator Mitchell's secretary, Harry C. Robertson, from Washington, D. C., was one from Senator Mitchell to his law partner, Judge Albert H. Tanner, dealing with their partnership agreements. The letter was surrendered by Mr. Robertson to United States Attorney Heney and appears as one of the exhibits in the case, worked up by Mr. Heney against Senator Mitchell.

The governor considers this letter of Senator Mitchell's valuable to the case in that they contend that it shows the line of testimony which Senator Mitchell desired Mr. Tanner to give before the grand jury on his second appearance before that body. The letter, dated Washington, D. C., Feb. 5, is as follows:

"My Dear Judge:—I am almost afraid to write a word, as the scoundrels will misconstrue everything and distort all that I said. Your friend with letter did not arrive here until today. Your letter only received at 3 p. m. I have made search for my articles of co-partnership of 1902, but I am unable to find it. I think it must be among my papers in the office. Harry, of course, prepared these articles. You will see Harry on his arrival. I found our supplemental agreements, of date, Nov. 1, 1904, which are all right. Harry has these with him.

Recites the Facts.

Now the facts are these, and you must deal with them accordingly: (1) Under our articles, I was not to have any interest whatever in any business you might do in any of the departments on any land matters; (2) as a matter of fact, I never knew until now that any charges for any such services had been credited either to me or the firm or that my accounts had ever been credited with any part thereof.

"As I was never furnished with any statement of any bank account or of any charges whatever and I have nothing to do with the book, nor did I see the same. You will remember several times I cautioned you not to mix me up in any way with any land office matter. (3) To this day I do not know what book entries you have made, or what you did with any cash or checks, if you ever received any for service. Nor was I ever advised by you, or did I have any knowledge that any part of any such cash, or receipts, was placed to the credit of our firm or myself.

"Now, Judge, you will agree with me, I am sure, these are the facts, and I am also sure, whatever entries you made, you never intended I should have any part of such cash or checks, if any, and that you intended that in some way in settling accounts between us no part of any such moneys or checks should be any other but your individual property. I had supposed, of course, that you had kept all such charges and accounts in your own name. There is no offense on your part in doing business for honest people in these land matters. I hope therefore you will do me the justice at the proper time in giving me the facts just as they are

And as I Have Stated them. You must not get rattled or alarmed. Harry will doubtless identify the co-partnership articles of 1902 as having been prepared by him. See him at once on his arrival. Don't be interviewed until I see you, and now, strictly confidential, don't tell Harry, your son, or anyone."

The letter then urges Judge Tanner to take all the company's books and Tanner's bank book secretly to Washington at once and especially before Tanner could again be called before the grand jury. The letter warned Judge Tanner to keep all important papers in the safe and to keep the safe locked.

Subsequent to writing this letter Senator Mitchell sent two messages to Judge Tanner from Washington, which will be introduced as further evidence by the government in support of its contention that the letter was intended to direct Judge Tanner's line of testimony. The first message, dated Feb. 8, follows:

"Harry is due Portland Thursday morning. Don't fail to comply with my request. It is important. Don't be interviewed."

The second message, dated Feb. 9, says:

"I am deeply grieved. I am sure you are not guilty. Don't be interviewed. Say nothing. Don't fail to comply with my request in Harry's letter"

Sylvester Scovel Is Dead.

Columbus, O., Feb. 13.—Sylvester Scovel of this city, who attained prominence during the Spanish-American war on account of an altercation with General Shafter, died Sunday at a hospital in Havana, following an operation for abscess of the liver. Scovel accompanied the Santiago expedition as a correspondent.

AFTER A PERILOUS RIDE.

Seven Persons Rescued From an Ice Floe at New York.

New York, Feb. 13.—After a perilous, swift and enforced ride of more than three-quarters of a mile from down East River in a huge ice floe Sunday night, seven persons, including women and children, were rescued by a municipal vessel. The floe, which stretched from North Brother Island to the Bronx, drifted down the river with the tide and in its passage tore from their moorings the James D. Perkins and the Eureka, two coal barges which had been fastened to the pier at One Hundred and Thirty-ninth street, with rope and steel cables.

On the Perkins were Captain Henry Flood, his wife and their little daughter. Captain John Kratzner of the Eureka had on board with him his wife and two sons. During their dangerous experience a heavy rain fell, the river was a torrent, and barges surrounded by the floe.

BIG ICE GORGE BREAKS.

One Steamer Sunk and a Hundred and Fifty Barges Torn Loose.

Cincinnati, O., Feb. 13.—Half a million dollars' worth of river property was placed in jeopardy, one steamer was sunk, 150 barges were torn loose and sent down the river, probably all of them being a total loss, and several other steamers seriously damaged Sunday from the break-up of the ice gorges at this point in the Ohio. The gorge at North Bend broke first, causing much damage when the ice in the local harbor passed out. Soon afterward the gorge at the Covington waterworks broke, sending tons of ice rushing citywards.

COSTLY FIRE IN SEATTLE.

Property Valued at Four Hundred Thousand Dollars Destroyed.

Seattle, Wash., Feb. 13.—Fire destroyed the eight-story building of the Schwabacher Hardware company at Yesler Way and First avenue Sunday early Sunday. Loss estimated at \$400,000, covered by insurance. It is believed that the fire was caused by crossed electric wires.

CAUSED BY A BROKEN RAIL.

Passenger Train Wrecked in Iowa and One Man Killed.

Creston, Ia., Feb. 13.—Passenger train No. 13, drawn by two engines on the Chicago, Burlington and Quincy railroad, was wrecked Sunday near here. E. P. Allen, engineer, Lincoln, Neb., was killed and three employees of the road were badly burned. The wreck was caused by a broken rail.

Four Persons Injured.

Erie, Pa., Feb. 13.—Four persons were injured, two of them fatally, by an explosion of natural gas Sunday at the home of the caretaker of the city waterworks reservoir. All were blown through a second-story window and down a thirty-foot embankment.

TELEGRAPHIC BREVITIES.

General Lew Wallace is said to be critically ill at Crawfordsville, Ind.

Japan has placed an urgent order with a Glasgow manufacturer for fifty powerful locomotives.

The plant of the Penn Bridge company at Beaver Falls, Pa., was destroyed by fire Sunday night. Loss, \$75,000.

The official announcement of Ambassador McCormick's promotion to the Paris embassy is received with surprise and regret in St. Petersburg.

Dr. Frank Cowan, son of former United States Senator Eagan Cowan, died Sunday at Greensburg, Pa., after an illness of several months, aged sixty-one. He was a noted traveler, lawyer, physician, lecturer, poet, historian and editor.

Poultry—Turkeys, 14c; chickens, 12 1/2 c; springs, 12 1/2 c.

BILL FOR A STATE SONG.

Measure Introduced in the South Dakota Legislature.

A bill was recently introduced in the South Dakota house of representatives by Representative Apland for the adoption of a state song, whose author is Stena Sidnell Peterson of Centerville, says a dispatch from Pierre, S. D., to the St. Paul Dispatch. When the bill was first presented the assistant clerk of the house offered to sing the song to the members, but the offer was declined, and the song was referred to the committee on immigration. Following is Mr. Peterson's production to be sung to the tune of "Yes, We'll Rally 'Round the Flag, Boys!":

Where the skies in beauty beam
And the sunsets golden gleam
There is my home in South Dakota;
Where the fields of waving grain
Raise in glory to thy name,
Giving a cheer for South Dakota.

CHORUS.
All hail to Dakota! With glad hearts we sing
Till far o'er the prairies our praises will ring
And within each patriot heart what a joy it doth impart!
Hail to the state of South Dakota!

Where the western breezes blow,
Goldenrod and roses grow,
Over the plains of South Dakota,
And the lovely autumn days
Into winter lingering stay—
Then give a cheer for South Dakota.

Timber land of wealth untold,
Mines of silver and of gold,
Are in the hills of South Dakota.
Wonderful thy "Cave of Winds"
And thy great and famous springs—
Then give a cheer for South Dakota.

They gather from the east,
And they gather from the west,
Seeking for homes in South Dakota.
What a welcome glad and free
From each pioneer you see—
Then give a cheer for South Dakota.

'Tis the home land of the free;
Patriots of liberty
Came from the homes of South Dakota.
And the nation's flag shall wave
Long in honor of her brave—
Then give a cheer for South Dakota.

YELLS IN LAUNDRY LINEN.

Baby Taken in Its Basket by Mistake For Family Washing.

Many persons living in Winsted, Conn., have a custom of putting their babies out of doors to sleep, thinking the air makes them stronger and healthier, says the New York World.

Edmund Angell, employed by a steam laundry, stopped his horse in front of St. James' rectory, on Main street, the other morning to collect the family washing of the Rev. S. Wolcott Linsley.

Seeing a covered basket on the front veranda and thinking it contained soiled linen for the laundry, young Angell picked it up, placed it in the sleigh with the other washing and started on.

He had not gone far, however, before he heard a yelling resembling a baby's cries. The horse was stopped, and the driver quickly discovered that the cries were human and came from the basket he had taken from the rectory's porch.

Raising the soft blankets which covered the basket, Angell found the infant son of the Rev. Mr. Linsley. He hastened back to the rectory with the basket containing John Chauncey Wolcott Linsley and exchanged it for the basket with the washing.

Nearly Forty Rabbits at One Shot.

The killing of thirty-nine jack rabbits at one shot by a woman who poked a gun barrel through her kitchen window, winning a barrel of Baldwin apples as a wager from her husband, is a story that is causing interest at Miller, S. D., says a dispatch from that place. It was during a recent deep snow. The woman sprinkled a bushel of oats in a path in range of the kitchen window. The rabbits gathered by the score until there was a long row of them eating oats by the bright moonlight. The woman fired, and her aim was accurate. The dead rabbits, it is said, weighed 300 pounds. The woman sold enough rabbits to buy herself a new bone cutter and then cut up the remainder and fed them to her flock of chickens, which means lots of eggs, for nothing, it is said, puts a hen in the mood of breaking the egg trust quicker than crushed jack rabbit.

Highest Railway Trestle.

The New York Central Railroad company, which has three gangs of civil engineers at work at different points in Connecticut surveying for a double track road from its Harlem branch at Brewster, N. Y., to connect with the Boston and Albany railroad at Springfield, Mass., will have to erect a trestle 400 feet high, the highest in the world, near Thomaston, if a grade of 1 per cent is not exceeded, says a Winsted (Conn.) dispatch to the New York Tribune. The engineers have instructions not to exceed if possible a 1 per cent grade and to avoid sharp curves. To keep the grade down in crossing the ranges of hills the line is being carried high across the valleys, with tunnels through the hills instead of cuts. A tunnel one mile long will have to be bored at Nepaug, six miles from Winsted.

The South's Great Year.

There is one striking point worthy of general attention, and that is, while raising by far the largest cotton crop ever produced, larger than the world generally had supposed that the south could cultivate and pick with its present labor supply, this section at the same time has raised its largest grain crops and its largest fruit crops and, in addition to all of this, has steadily developed its industrial and railroad interests, says the Manufacturers' Record. The people of the south have thus been doing more work and accomplishing greater results during the last twelve months than ever before.

HUTTON'S ONE RECIPE.

It Included a Paper Cutter, Ink Eraser and Rubber Bands.

Perhaps the most ingenious and the most original of all schemes for procuring autographs was from a lady in a western town. She was raising funds for the building and support of a public library, and she had conceived the idea of issuing a volume to be called "The Authors' Recipe Book." Authors from all over the country, the most distinguished of authors—always authors with a capital A—had been good enough to send her a list of the favorite dishes of their own construction, with their method of making them.

The cookbook was one of the many forms of literature to which the recipient had never turned his attention. He had no more idea of cooking than he had of milking a cow or of harnessing a horse or of setting a hen or of building a dynamo. He did not even care what was cooked for him so long as it contained none of the ingredients of tripe and none of the essence of tomato. But he was asked to contribute a paper, which she would have reproduced in facsimile, stating what he could prepare most to his liking upon a kitchen range or in a chafing dish, with his manner of procedure. This quite nonplused him until he bethought himself of one particular and peculiar delicacy in the evolution of which he could safely trust his reputation as an expert. In reply, for which he received no thanks, he said:

"Take a long paper cutter; attach to the same by means of rubber bands, and securely, an ink eraser; insert the ink eraser firmly into a marshmallow plug and hold the same over a student's lamp or study fire until the marshmallow begins to sizz, drops into the ashes, puts out the light or burns your hand. And eat while hot!"

He has never seen a copy of "The Authors' Recipe Book!"—Laurence Hutton in Critic.

BULGING GUN BARRELS.

The Ruin That Is Wrought by Careless Handling.

I have sold guns for ten years, and in that time four of them have had their barrels bulged, one by snow, one by dirt, one by sand and one by something else getting into it. One man crawling through a fence got a little snow in the muzzle. He could not remove it with his finger, so concluded to wait and shoot it out, which he did, but he found a bulge like a pullet's egg on the end of the barrel. Another got some earth in the muzzle and shot it out, and he, too, found the same kind of a bulge on the end of his gun. Another fired his gun at ducks, which knocked him over on his back and fairly got away from him. When he picked up the gun he found a narrow raised band around the barrel fourteen inches from the muzzle. In this case a wad had probably lodged there. This customer thinks the manufacturers ought to give him a new set of barrels. I tell him if the barrels had not been good ones it would have been a burst instead of a bulge, which might have maimed or killed him. Another man lying on a point brought down a duck with a broken wing which scurried for the water. The man ran and struck the duck with the muzzle of the gun and in so doing got sand in it. He blew most of it out and shot out the rest of it. Well, after that shot he found a little blister two inches from the muzzle about the size of a man's little finger.

Moral.—Do not shoot obstructions of any kind out of your gun if you value your life or gun.—Uncle Dan in Amateur Sportsman.

The Misery of Piles

Thousands know it and thousands daily submit, through their ignorance, to the torture of the knife.

They are ignorant of the fact that there is an internal remedy that will positively and painlessly cure.

Dr. Perrin's Pile Specific

The Internal Remedy

strikes at the prime causes of piles—indigestion, congestion of the liver and constipation. These causes are removed and removed for good. Get a bottle today and see how well it proves the truth of this statement.

For dyspepsia, indigestion, constipation, biliousness, catarrh of the stomach and kindred ailments it is the greatest remedy that has ever yet benefited mankind.

When these troubles are taken care of and cured, Piles will be a thing of the past.

FOR USE AS EVIDENCE

GOVERNMENT CONSIDERS A LETTER WRITTEN BY OREGON SENATOR VALUABLE.

WAS SENT TO HIS PARTNER

MISSIVE HELD TO SHOW LINE OF

TESTIMONY MITCHELL WANTED TANNER TO GIVE.

Portland, Ore., Feb. 13.—Among the papers brought by Senator Mitchell's secretary, Harry C. Robertson, from Washington, D. C., was one from Senator Mitchell to his law partner, Judge Albert H. Tanner, dealing with their partnership agreements. The letter was surrendered by Mr. Robertson to United States Attorney Heney and appears as one of the exhibits in the case, worked up by Mr. Heney against Senator Mitchell.

The government considers this letter of Senator Mitchell's valuable to the case in that they contend that it shows the line of testimony which Senator Mitchell desired Mr. Tanner to give before the grand jury on his second appearance before that body. The letter, dated Washington, D. C., Feb. 5, is as follows:

"My Dear Judge:—I am almost afraid to write a word, as the scoundrels will misconstrue everything and distort all that I said. Your friend with letter did not arrive here until today. Your letter only received at 3 p. m. I have made search for my articles of co-partnership of 1902, but I am unable to find it. I think it must be among my papers in the office. Harry, of course, prepared these articles. You will see Harry on his arrival. I found our supplemental agreements, of date, Nov. 1, 1904, which are all right. Harry has these with him.

Recites the Facts.

Now the facts are these, and you must deal with them accordingly: (1) Under our articles, I was not to have any interest whatever in any business you might do in any of the departments on any land matters; (2) as a matter of fact, I never knew until now that any charges for any such services had been credited either to me or the firm or that my accounts had ever been credited with any part thereof.

"As I was never furnished with any statement of any bank account or of any charges whatever and I have nothing to do with the book, nor did I see the same. You will remember several times I cautioned you not to mix me up in any way with any land office matter. (3) To this day I do not know what book entries you have made, or what you did with any cash or checks, if you ever received any for service. Nor was I ever advised by you, or did I have any knowledge that any part of any such cash, or receipts, was placed to the credit of our firm or myself.

"Now, judge, you will agree with me, I am sure, these are the facts, and I am also sure, whatever entries you made, you never intended I should have any part of such cash or checks, if any, and that you intended that in some way in settling accounts between us no part of any such moneys or checks should be any other but your individual property. I had supposed, of course, that you had kept all such charges and accounts in your own name. There is no offense on your part in doing business for honest people in these land matters. I hope therefore you will do me the justice at the proper time in giving me the facts just as they are

And as I Have Stated

them. You must not get rattled or alarmed. Harry will doubtless identify the co-partnership articles of 1902 as having been prepared by him. See him at once on his arrival. Don't be interviewed until I see you, and now, strictly confidential, don't tell Harry, your son, or anyone."

The letter then urges Judge Tanner to take all the company's books and Tanner's bank book secretly to Washington at once and especially before Tanner could again be called before the grand jury. The letter warned Judge Tanner to keep all important papers in the safe and to keep the safe locked.

Subsequent to writing this letter Senator Mitchell sent two messages to Judge Tanner from Washington, which will be introduced as further evidence by the government in support of its contention that the letter was intended to direct Judge Tanner's line of testimony. The first message, dated Feb. 8, follows:

"Harry is due Portland Thursday morning. Don't fail to comply with my request. It is important. Don't be interviewed."

The second message, dated Feb. 9, says:

"I am deeply grieved. I am sure you are not guilty. Don't be interviewed. Say nothing. Don't fail to comply with my request in Harry's letter."

Sylvester Scovel is Dead.

Columbus, O., Feb. 13.—Sylvester Scovel of this city, who attained prominence during the Spanish-American war on account of an altercation with General Shafter, died Sunday at a hospital in Havana, following an operation for abscess of the liver. Scovel accompanied the Santiago expedition as a correspondent.

AFTER A PERILOUS RIDE.

Seven Persons Rescued From an Ice Floe at New York.

New York, Feb. 13.—After a perilous, swift and enforced ride of more than three-quarters of a mile from down East River in a huge ice floe Sunday night, seven persons, including women and children, were rescued by a municipal vessel. The floe, which stretched from North Brother Island to the Bronx, drifted down the river with the tide and in its passage tore from their moorings the James D. Perkins and the Eureka, two coal barges which had been fastened to the pier at One Hundred and Thirty-ninth street, with rope and steel cables.

On the Perkins were Captain Henry Flood, his wife and their little daughter. Captain John Kratzner of the Eureka had on board with him his wife and two sons. During their dangerous experience a heavy rain fell, the river was a torrent, and barges surrounded by the floe.

BIG ICE GORGE BREAKS.

One Steamer Sunk and a Hundred and Fifty Barges Torn Loose.

Cincinnati, O., Feb. 13.—Half a million dollars' worth of river property was placed in jeopardy, one steamer was sunk, 150 barges were torn loose and sent down the river, probably all of them being a total loss, and several other steamers seriously damaged Sunday from the break-up of the ice gorges at this point in the Ohio. The gorge at North Bend broke first, causing much damage when the ice in the local harbor passed out. Soon afterward the gorge at the Covington waterworks broke, sending tons of ice rushing citywards.

COSTLY FIRE IN SEATTLE.

Property Valued at Four Hundred Thousand Dollars Destroyed.

Seattle, Wash., Feb. 13.—Fire destroyed the eight-story building of the Schwabacher Hardware company at Yesler Way and First avenue South early Sunday. Loss estimated at \$400,000, covered by insurance. It is believed that the fire was caused by crossed electric wires.

CAUSED BY A BROKEN RAIL.

Passenger Train Wrecked in Iowa and One Man Killed.

Creston, Ia., Feb. 13.—Passenger train No. 13, drawn by two engines on the Chicago, Burlington and Quincy railroad, was wrecked Sunday near here. E. P. Allen, engineer, Lincoln, Neb., was killed and three employees of the road were badly burned. The wreck was caused by a broken rail.

Four Persons Injured.

Erie, Pa., Feb. 13.—Four persons were injured, two of them fatally, by an explosion of natural gas Sunday at the home of the caretaker of the city waterworks reservoir. All were blown through a second-story window and down a thirty-foot embankment.

TELEGRAPHIC BREVITIES.

General Lew Wallace is said to be critically ill at Crawfordsville, Ind.

Japan has placed an urgent order with a Glasgow manufacturer for fifty powerful locomotives.

The plant of the Penn Bridge company at Beaver Falls, Pa., was destroyed by fire Sunday night. Loss, \$75,000.

The official announcement of Ambassador McCormick's promotion to the Paris embassy is received with surprise and regret in St. Petersburg.

Dr. Frank Cowan, son of former United States Senator Eagan Cowan, died Sunday at Greensburg, Pa., after an illness of several months, aged sixty-one. He was a noted traveler, lawyer, physician, lecturer, poet, historian and editor.

Poultry—Turkeys, 14c; chickens, 12 1/2c; springs, 12 1/2c.

BILL FOR A STATE SONG.

Measure Introduced in the South Dakota Legislature.

A bill was recently introduced in the South Dakota house of representatives by Representative Apland for the adoption of a state song, whose author is Stena Sidnell Peterson of Centerville. A dispatch from Pierre, S. D., to the St. Paul Dispatch. When the bill was first presented the assistant clerk of the house offered to sing the song to the members, but the offer was declined, and the song was referred to the committee on immigration. Following is Mr. Peterson's production to be sung to the tune of "Yes, We'll Rally 'Round the Flag, Boys!":

Where the skies in beauty beam
And the sunsets golden gleam,
There is my home in South Dakota;
Where the fields of waving grain
Raise in glory to thy name,
Giving a cheer for South Dakota.

CHORUS.

All hail to Dakota! With glad hearts we
sing,
Till far o'er the prairies our praises will
ring.
And within each patriot heart what a joy
it doth impart!
Hail to the state of South Dakota!

Where the western breezes blow,
Goldenrod and roses grow,
Over the plains of South Dakota,
And the lovely autumn days
Into winter lingering stay—
Giving a cheer for South Dakota.

Timber land of wealth untold,
Mines of silver and of gold,
Are in the hills of South Dakota.
Wonderful thy "Cave of Winds"
And thy great and famous springs—
Then give a cheer for South Dakota.

They gather from the east,
And they gather from the west,
Seeking for homes in South Dakota.
What a welcome glad and free
From each pioneer you see—
Then give a cheer for South Dakota.

'Tis the home land of the free;
Patriots of liberty
Came from the homes of South Dakota.
And the nation's flag shall wave
Long in honor of her brave—
Then give a cheer for South Dakota.

YELLS IN LAUNDRY LINEN.

Baby Taken in Its Basket by Mistake For Family Washing.

Many persons living in Winsted, Conn., have a custom of putting their babies out of doors to sleep, thinking the air makes them stronger and healthier, says the New York World.

Edmund Angell, employed by a steam laundry, stopped his horse in front of St. James' rectory, on Main street, the other morning to collect the family washing of the Rev. S. Wolcott Linsley.

Seeing a covered basket on the front veranda and thinking it contained soiled linen for the laundry, young Angell picked it up, placed it in the sleigh with the other washing and started on.

He had not gone far, however, before he heard a yelling resembling a baby's cries. The horse was stopped, and the driver quickly discovered that the cries were human and came from the basket he had taken from the rector's porch.

Raising the soft blankets which covered the basket, Angell found the infant son of the Rev. Mr. Linsley.

He hastened back to the rectory with the basket containing John Chauncey Wolcott Linsley and exchanged it for the basket with the washing.

Nearly Forty Rabbits at One Shot.

The killing of thirty-nine jack rabbits at one shot by a woman who poked a gun barrel through her kitchen window, winning a barrel of Baldwin apples as a wager from her husband, is a story that is causing interest at Miller, S. D., says a dispatch from that place. It was during a recent deep snow. The woman sprinkled a bushel of oats in a path in range of the kitchen window. The rabbits gathered by the score until there was a long row of them eating oats by the bright moonlight. The woman fired, and her aim was accurate. The dead rabbits, it is said, weighed 300 pounds. The woman sold enough rabbits to buy herself a new bone cutter and then cut up the remainder and fed them to her flock of chickens, which means lots of eggs, for nothing, it is said, puts a hen in the mood of breaking the egg trust quicker than crushed jack rabbit.

HUTTON'S ONE RECIPE.

It Included a Paper Cutter, Ink Eraser and Rubber Bands.

Perhaps the most ingenious and the most original of all schemes for procuring autographs was from a lady in a western town. She was raising funds for the building and support of a public library, and she had conceived the idea of issuing a volume to be called "The Authors' Recipe Book." Authors from all over the country, the most distinguished of authors—always authors with a capital A—had been good enough to send her a list of the favorite dishes of their own construction, with their method of making them.

The cookbook was one of the many forms of literature to which the recipient had never turned his attention. He had no more idea of cooking than he had of milking a cow or of harnessing a horse or of setting a hen or of building a dynamo. He did not even care what was cooked for him so long as it contained none of the ingredients of tripe and none of the essence of tomato. But he was asked to contribute a paper, which she would have reproduced in facsimile, stating what he could prepare most to his liking upon a kitchen range or in a chafing dish, with his manner of procedure. This quite nonplussed him until he bethought himself of one particular and peculiar delicacy in the evolution of which he could safely trust his reputation as an expert. In reply, for which he received no thanks, he said:

"Take a long paper cutter; attach to the same by means of rubber bands, and securely, an ink eraser; insert the ink eraser firmly into a marshmallow plug and hold the same over a student's lamp or study fire until the marshmallow begins to sizz, drops into the ashes, puts out the light or burns your hand. And eat while hot!"

He has never seen a copy of "The Authors' Recipe Book!"—Laurence Hutton in Critic.

BULGING GUN BARRELS.

The Ruin That Is Wrought by Careless Handling.

I have sold guns for ten years, and in that time four of them have had their barrels bulged, one by snow, one by dirt, one by sand and one by something else getting into it. One man crawling through a fence got a little snow in the muzzle. He could not remove it with his finger, so concluded to wait and shoot it out, which he did, but he found a bulge like a pullet's egg on the end of the barrel. Another got some earth in the muzzle and shot it out, and he, too, found the same kind of a bulge on the end of his gun. Another fired his gun at ducks, which knocked him over on his back and fairly got away from him. When he picked up the gun he found a narrow raised band around the barrel fourteen inches from the muzzle. In this case a customer thinks the manufacturers ought to give him a new set of barrels. I tell him if the barrels had not been good ones it would have been a burst instead of a bulge, which might have maimed or killed him. Another man lying on a point brought down a duck with a broken wing which scurried for the water. The man ran and struck the duck with the muzzle of the gun and in so doing got sand in it. He blew most of it out and shot out the rest of it. Well, after that shot he found a little blister two inches from the muzzle about the size of a man's little finger.

Moral.—Do not shoot obstructions of any kind out of your gun if you value your life or gun.—Uncle Dan in Amateur Sportsman.

All Mothers Know

the great danger of babies in bad fits of coughing. Gloria Lung Balsam will stop it almost instantly, so don't be without it. Sold by H. P. Dunn & Co. mwf

HOUSE HOLDS SUNDAY SESSION.

Members Pay Tribute to the Memory of the Late Senator Hoar.

Washington, Feb. 13.—Tribute to the memory of the late Senator George Frisbie Hoar of Massachusetts, was the occasion of a special session of the house of representatives Sunday. Many of the members attended the session, which began at 12 o'clock. The galleries were well occupied.

Representative Lawrence of Massachusetts presided. Resolutions expressing the sense of bereavement and loss in the death of Senator Hoar were offered by Representative Lovering (Mass.).

Speakers to these resolutions were Messrs. Gillett, Lawrence, Thayer, Sullivan, Green, Roberts, McNary, Powers, Kellner and Tirrell, all of Massachusetts, and Clark and De Armond of Missouri.

The eulogies occupied the house until 2:27 p. m., when the resolutions were adopted and the house adjourned.

In Dire Distress.

Misery and torture without parallel was the fate of Mr. Chas. Weaver, of Darlington, Wis. He writes: "After taking three boxes of Gloria Tonic my rheumatism entirely disappeared. Previous to taking this remedy I could not sleep nights." Sold by H. P. Dunn & Co. mwf

FOR USE AS EVIDENCE

GOVERNMENT CONSIDERS A LETTER WRITTEN BY OREGON SENATOR VALUABLE.

WAS SENT TO HIS PARTNER

MISSIVE HELD TO SHOW LINE OF TESTIMONY MITCHELL WANTED TANNER TO GIVE.

Portland, Ore., Feb. 13.—Among the papers brought by Senator Mitchell's secretary, Harry C. Robertson, from Washington, D. C., was one from Senator Mitchell to his law partner, Judge Albert H. Tanner, dealing with their partnership agreements. The letter was surrendered by Mr. Robertson to United States Attorney Heney and appears as one of the exhibits in the case, worked up by Mr. Heney against Senator Mitchell.

The government considers this letter of Senator Mitchell's valuable to the case in that they contend that it shows the line of testimony which Senator Mitchell desired Mr. Tanner to give before the grand jury on his second appearance before that body. The letter, dated Washington, D. C., Feb. 5, is as follows:

"My Dear Judge:—I am almost afraid to write a word, as the soundless will misconstrue everything and distort all that I said. Your friend with letter did not arrive here until today. Your letter only received at 3 p. m. I have made search for my articles of co-partnership of 1902, but I am unable to find it. I think it must be among my papers in the office. Harry, of course, prepared these articles. You will see Harry on his arrival. I found our supplemental agreements, of date, Nov. 1, 1904, which are all right. Harry has these with him.

Recites the Facts.

Now the facts are these, and you must deal with them accordingly: (1) Under our articles, I was not to have any interest whatever in any business you might do in any of the departments on any land matters; (2) as a matter of fact, I never knew until now that any charges for any such services had been credited either to me or the firm or that my accounts had ever been credited with any part thereof.

"As I was never furnished with any statement of any bank account or of any charges whatever and I have nothing to do with the book, nor did I see the same. You will remember several times I cautioned you not to mix me in any way with any land office matter. (3) To this day I do not know what book entries you have made, or what you did with any cash or checks, if you ever received any for service. Nor was I ever advised by you, or did I have any knowledge that any part of any such cash, or receipts, was placed to the credit of our firm or myself.

"Now, Judge, you will agree with me, I am sure, these are the facts, and I am also sure, whatever entries you made, you never intended I should have any part of such cash or checks, if any, and that you intended that in some way in settling accounts between us no part of any such moneys or checks should be any other but your individual property. I had supposed, of course, that you had kept all such charges and accounts in your own name. There is no offense on your part in doing business for honest people in these land matters. I hope therefore you will do me the justice at the proper time in giving me the facts just as they are

And as I Have Stated them. You must not get rattled or alarmed. Harry will doubtless identify the co-partnership articles of 1902 as having been prepared by him. See him at once on his arrival. Don't be interviewed until I see you, and now, strictly confidential, don't tell Harry, your son, or anyone."

The letter then urges Judge Tanner to take all the company's books and Tanner's bank book secretly to Washington at once and especially before Tanner could again be called before the grand jury. The letter warned Judge Tanner to keep all important papers in the safe and to keep the safe locked.

Subsequent to writing this letter Senator Mitchell sent two messages to Judge Tanner from Washington, which will be introduced as further evidence by the government in support of its contention that the letter was intended to direct Judge Tanner's line of testimony. The first message, dated Feb. 8, follows:

"Harry is due Portland Thursday morning. Don't fail to comply with my request. It is important. Don't be interviewed."

The second message, dated Feb. 9, says:

"I am deeply grieved. I am sure you are not guilty. Don't be interviewed. Say nothing. Don't fail to comply with my request in Harry's letter."

Sylvester Scovel is Dead.

Columbus, O., Feb. 13.—Sylvester Scovel of this city, who attained prominence during the Spanish-American war on account of an altercation with General Shafter, died Sunday at a hospital in Havana, following an operation for abscess of the liver. Scovel accompanied the Santiago expedition as a correspondent.

AFTER A PERILOUS RIDE.

Seven Persons Rescued From an Ice Floe at New York.

New York, Feb. 13.—After a perilous, swift and enforced ride of more than three-quarters of a mile from down East River in a huge ice floe Sunday night, seven persons, including women and children, were rescued by a municipal vessel. The floe, which stretched from North Brother Island to the Bronx, drifted down the river with the tide and in its passage tore from their moorings the James D. Perkins and the Eureka, two coal barges which had been fastened to the pier at One Hundred and Thirty-ninth street, with rope and steel cables.

On the Perkins was Captain Henry Flood, his wife and their little daughter. Captain John Kratzner of the Eureka had on board with him his wife and two sons. During their dangerous experience a heavy rain fell, the river was a torrent, and barges surrounded by the floe.

BIG ICE GORGE BREAKS.

One Steamer Sunk and a Hundred and Fifty Barges Torn Loose.

Cincinnati, O., Feb. 13.—Half a million dollars' worth of river property was placed in jeopardy, one steamer was sunk, 150 barges were torn loose and sent down the river, probably all of them being a total loss, and several other steamers seriously damaged Sunday from the break-up of the ice gorges at this point in the Ohio. The gorge at North Bend broke first, causing much damage when the ice in the local harbor passed out. Soon afterward the gorge at the Covington waterworks broke, sending tons of ice rushing citywards.

COSTLY FIRE IN SEATTLE.

Property Valued at Four Hundred Thousand Dollars Destroyed.

Seattle, Wash., Feb. 13.—Fire destroyed the eight-story building of the Schwabacher Hardware company at Yesler Way and First avenue Sunday early Sunday. Loss estimated at \$400,000, covered by insurance. It is believed that the fire was caused by crossed electric wires.

CAUSED BY A BROKEN RAIL.

Passenger Train Wrecked in Iowa and One Man Killed.

Creston, Ia., Feb. 13.—Passenger train No. 13, drawn by two engines on the Chicago, Burlington and Quincy railroad, was wrecked Sunday near here. E. P. Allen, engineer, Lincoln, Neb., was killed and three employees of the road were badly burned. The wreck was caused by a broken rail.

Four Persons Injured.

Eric, Pa., Feb. 13.—Four persons were injured, two of them fatally, by an explosion of natural gas Sunday at the home of the caretaker of the city waterworks reservoir. All were blown through a second-story window and down a thirty-foot embankment.

TELEGRAPHIC BREVITIES.

General Lew Wallace is said to be critically ill at Crawfordsville, Ind.

Japan has placed an urgent order with a Glasgow manufacturer for fifty powerful locomotives.

The plant of the Penn Bridge company at Beaver Falls, Pa., was destroyed by fire Sunday night. Loss, \$75,000.

The official announcement of Ambassador McCormick's promotion to the Paris embassy is received with surprise and regret in St. Petersburg.

Dr. Frank Cowan, son of former United States Senator Eagan Cowan, died Sunday at Greensburg, Pa., after an illness of several months, aged sixty-one. He was a noted traveler, lawyer, physician, lecturer, poet, historian and editor.

Eggs—23¢ to 27c. Poultry—Turkeys, 14c; chickens, 12½¢; springs, 12½¢.

BILL FOR A STATE SONG.

Measure Introduced in the South Dakota Legislature.

A bill was recently introduced in the South Dakota house of representatives by Representative Apland for the adoption of a state song, whose author is Stena Sidnell Peterson of Centerville, says a dispatch from Pierre, S. D., to the St. Paul Dispatch. When the bill was first presented the assistant clerk of the house offered to sing the song to the members, but the offer was declined, and the song was referred to the committee on immigration. Following is Mr. Peterson's production to be sung to the tune of "Yes, We'll Rally 'Round the Flag, Boys!":

Where the skies in beauty beam
And the sunsets golden gleam,
There is my home in South Dakota;
Where the fields of waving grain
Raise in glory to my name,
Giving a cheer for South Dakota.

CHORUS.
All hail to Dakota! With glad hearts we sing
Till far o'er the prairies our praises will ring
And within each patriot heart what a joy
It doth impart!
Hail to the state of South Dakota!

Where the western breezes blow,
Goldenrod and roses grow,
Over the plains of South Dakota,
And the lovely autumn days
Into winter lingering stay—
Giving a cheer for South Dakota.

Timber land of wealth untold,
Mines of silver and of gold,
Are in the hills of South Dakota.
Wonderful thy "Cave of Winds"
And thy great and famous springs—
Then give a cheer for South Dakota.

They gather from the east,
And they gather from the west,
Seeking for homes in South Dakota.
What a welcome glad and free
From each pioneer you see,
Then give a cheer for South Dakota.

"Tis the home land of the free;
Patriots of liberty
Came from the homes of South Dakota.
And the nation's flag shall wave
Long in honor of her brave—
Then give a cheer for South Dakota.

YELLS IN LAUNDRY LINEN.

Baby Taken In Its Basket by Mistake For Family Washing.

Many persons living in Winsted, Conn., have a custom of putting their babies out of doors to sleep, thinking the air makes them stronger and healthier, says the New York World.

Edmund Angell, employed by a steam laundry, stopped his horse in front of St. James' rectory, on Main street, the other morning to collect the family washing of the Rev. S. Wolcott Lindsey.

Seeing a covered basket on the front veranda and thinking it contained soiled linen for the laundry, young Angell picked it up, placed it in the sleigh with the other washing and started on.

He had not gone far, however, before he heard a yelling resembling a baby's cries. The horse was stopped, and the driver quickly discovered that the cries were human and came from the basket he had taken from the rector's porch.

Raising the soft blankets which covered the basket, Angell found the infant son of the Rev. Mr. Lindsey.

He hastened back to the rectory with the basket containing John Chauncey Wolcott Lindsey and exchanged it for the basket with the washing.

Nearly Forty Rabbits at One Shot.

The killing of thirty-nine jack rabbits at one shot by a woman who poked a gun barrel through her kitchen window, winning a barrel of Baldwin apples as a wager from her husband, is a story that is causing interest at Miller, S. D., says a dispatch from that place. It was during a recent deep snow. The woman sprinkled a bushel of oats in a path in range of the kitchen window. The rabbits gathered by the score until there was a long row of them eating oats by the bright moonlight. The woman fired, and her aim was accurate. The dead rabbits, it is said, weighed 300 pounds. The woman sold enough rabbits to buy herself a new bone cutter and then cut up the remainder and fed them to her flock of chickens, which means lots of eggs, for nothing, it is said, puts a hen in the mood of breaking the egg trust quicker than crushed jack rabbit.

Highest Railway Trestle.

The New York Central Railroad company, which has three gangs of civil engineers at work at different points in Connecticut surveying for a double track road from its Harlem branch at Brewster, N. Y., to connect with the Boston and Albany railroad at Springfield, Mass., will have to erect a trestle 400 feet high, the highest in the world, near Thomaston, if a grade of 1 per cent is not exceeded, says a Winsted (Conn.) dispatch to the New York Tribune. The engineers have instructions not to exceed if possible a 1 per cent grade and to avoid sharp curves. To keep the grade down in crossing the ranges of hills the line is being carried high across the valleys, with tunnels through the hills instead of cuts. A tunnel one mile long will have to be bored at Nepaug, six miles from Winsted.

The South's Great Year.

There is one striking point worthy of general attention, and that is, while raising by far the largest cotton crop ever produced, larger than the world generally had supposed that the south could cultivate and pick with its present labor supply, this section at the same time has raised its largest grain crops and its largest fruit crops and, in addition to all of this, has steadily developed its industrial and railroad interests, says the Manufacturers' Record. The people of the south have thus been doing more work and accomplishing greater results during the last twelve months than ever before.

HUTTON'S ONE RECIPE.

It Included a Paper Cutter, Ink Eraser and Rubber Bands.

Perhaps the most ingenious and the most original of all schemes for procuring autographs was from a lady in a western town. She was raising funds for the building and support of a public library, and she had conceived the idea of issuing a volume to be called "The Authors' Recipe Book." Authors from all over the country, the most distinguished of authors—always authors with a capital A—had been good enough to send her a list of the favorite dishes of their own construction, with their method of making them.

The cookbook was one of the many forms of literature to which the recipient had never turned his attention. He had no more idea of cooking than he had of milking a cow or of harnessing a horse or of setting a hen or of building a dynamo. He did not even care what was cooked for him so long as it contained none of the ingredients of tripe and none of the essence of tomato. But he was asked to contribute a paper, which she would have reproduced in facsimile, stating what he could prepare most to his liking upon a kitchen range or in a chafing dish, with his manner of procedure. This quite nonplused him until he bethought himself of one particular and peculiar delicacy in the evolution of which he could safely trust his reputation as an expert. In reply, for which he received no thanks, he said:

"Take a long paper cutter; attach to the same by means of rubber bands, and securely, an ink eraser; insert the ink eraser firmly into a marshmallow plug and hold the same over a student's lamp or study fire until the marshmallow begins to sizz, drops into the ashes, puts out the light or burns your hand. And eat while hot!"

He has never seen a copy of "The Authors' Recipe Book!"—Laurence Hutton in Critic.

BULGING GUN BARRELS.

The Ruin That Is Wrought by Careless Handling.

I have sold guns for ten years, and in that time four of them have had their barrels bulged, one by snow, one by dirt, one by sand and one by something else getting into it. One man crawling through a fence got a little snow in the muzzle. He could not remove it with his finger, so concluded to wait and shoot it out, which he did, but he found a bulge like a pullet's egg on the end of the barrel. Another got some earth in the muzzle and shot it out, and he, too, found the same kind of a bulge on the end of his gun. Another fired his gun at ducks, which knocked him over on his back and fairly got away from him. When he picked up the gun he found a narrow raised band around the barrel fourteen inches from the muzzle. In this case a bad probably lodged there. This customer thinks the manufacturers ought to give him a new set of barrels. I tell him if the barrels had not been good ones it would have been a burst instead of a bulge, which might have maimed or killed him. Another man lying on a point brought down a duck with a broken wing which scurried for the water. The man ran and struck the duck with the muzzle of the gun and in so doing got sand in it. He blew most of it out and shot out the rest of it. Well, after that shot he found a little blister two inches from the muzzle about the size of a man's little finger.

Moral—Do not shoot obstructions of any kind out of your gun if you value your life or gun.—Uncle Dan in Amateur Sportsman.
